This letter is written in support for the allowance of the continued operation of Novak manor for the described weekends leading up to Halloween.

My wife and I are neighbors of the Novak's by 3 houses on 98th St. During the weeks leading up to Halloween we get to have a haunted Manor right down the street. My wife and I will always attend on the 1st weekend and then we go multiple more times with friends and family that visit from around the state and want to join in the fun. It amazes me how the Novak's are continuing to add new and interesting attractions. There are a lot of people that park on the street all around the Manor and we have never seen bad attitudes or any troublemakers. What you can see and hear is the fun and excitement in their faces before and after as they walk down the street. We have driven past the event as it was open… because we live there… and have never been slowed in our travels.

We've also never had any trash in our yard from the families coming and going, they don't sell drinks or food….equals no trash. (they also have garbage cans strategically placed around their property)
I take care of my lawn and have not had anyone walking in my yard. After Halloween with all those families I am impressed at how well the Novak yard recovers.
My wife and I work very early in the morning and appreciate that the Novak's close at 10pm SHARP and visitors disappear just as quick. It shows respect for the neighborhood.

I would suggest if you have not been to the Manor- Go- and you will see that this is an all-inclusive event for folks that just want to enjoy themselves.

Thank you for your consideration,
Doug and Debbie Luttrell
