RE: New Incentive Program for Worker's Compensation

Dear Mayor Devine and Common Council Members:

Attached are the Executive Safety Committee minutes from its special meeting on September 11, 2015. The committee met to review and discuss another incentive program for worker's compensation related to cost savings for physical therapy services. The committee recommends the implementation of a \$100 physical therapy incentive to be administered by the City's worker's compensation third party administrator, CVMIC. CVMIC contracts with Wisconsin Orthopedic Physical Therapy for these services and will now do so on our behalf.

If you have any questions or would like further information, please contact me or Linda Huske, the City's Safety & Training Coordinator.

Sincerely,

A handwritten signature in cursive script that reads "Rebecca N. Grill".

Rebecca N. Grill
