

CORRESPONDENCE/MEMORANDUM

STATE OF WISCONSIN
Department of Transportation

Date: February 11, 2015

To: Don Greuel, PE
 Bureau of Project Development
 Design Services

From: Chris Hager, P.E.
 WisDOT SE Freeways WZ Traffic Lead

Subject: WisDOT Project ID 1060-37-92; Contract No. 34
 Zoo Interchange Project
 Traffic Mitigation Agreement

We are submitting for your review and concurrence, a summary of the work to be performed as traffic mitigation measures for the Zoo Interchange Project. The Department advises implementation of the following traffic mitigation projects to minimize traffic disruption and impacts to the community:

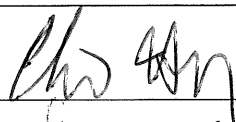

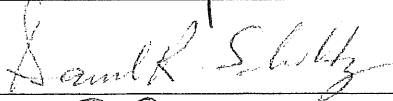

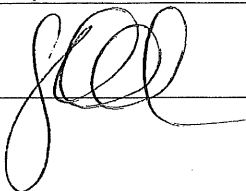

ALL-TERRAIN EMERGENCY VEHICLE

Purchase an All-Terrain Emergency Vehicle for use in the Zoo Interchange Project area. The city will equip, operate, and maintain the All-Terrain Emergency Vehicle once purchased. WisDOT may transfer the storage of the vehicle to another municipality depending on project needs. The municipality storing the vehicle shall be responsible for properly equipping, operating, and maintaining the vehicle. Vehicle is to remain dedicated to the Zoo Interchange Project area for the remainder of the Zoo Interchange Project, at least four years.

The city shall share the usage of the All-Terrain Emergency Vehicle with all municipalities participating in their Mutual Aid Box Alarm System (known as MABAS) division. MABAS is a mutual aid measure that may be used for deploying fire, rescue and emergency medical services personnel in a multi-jurisdictional and/or multi-agency response.

The City of West Allis Fire Department is currently responding to incidents in the City of West Allis and is best trained and equipped to provide emergency response to traffic and work zone incidents in the City of West Allis. Access to areas within the work zone is difficult for typical emergency response vehicles. As a result, it is cost-effective and in the public's best interest to provide this equipment through the City of West Allis Fire Department as no other practical alternatives exist.

City of West Allis Fire Department
 Total \$45,000

AGREEMENT BETWEEN
THE WISCONSIN DEPARTMENT OF TRANSPORTATION
AND
THE CITY OF WEST ALLIS FIRE DEPARTMENT

State Project I.D. 1060-37-92
CONTRACT NO. 34
2015 Traffic Mitigation
Zoo Interchange Project

This agreement is a formal partnership, made and entered into between the Wisconsin Department of Transportation (DEPARTMENT) and the West Allis Fire Department (CITY), to provide for services as described herein. The Wisconsin Department of Transportation and West Allis Fire Department are partnering during the Zoo Interchange Project (PROJECT) to ensure that emergency response capabilities are not adversely affected by roadway reconstruction.

The DEPARTMENT advises implementation of a comprehensive and cost effective transportation management plan that will help ensure the safety, accessibility and mobility for the traveling public in the PROJECT area. The PROJECT area is defined as interstates I-94 and I-894/USH-45 from Lincoln Avenue on the south, west of Underwood Parkway on the west, Burleigh Road on the north and 70th Street on the east. Included in the PROJECT area are local alternate route streets within two miles of the interstate roadways.

All-Terrain Emergency Vehicle

Access to areas within the work zone is difficult for typical emergency response vehicles due to rugged terrain within the job site. The DEPARTMENT will provide \$45,000 to the CITY to purchase an All-Terrain Emergency Vehicle for use when responding to incidents in the PROJECT area. The CITY will equip, operate, and maintain the All-Terrain Emergency Vehicle once purchased. The DEPARTMENT may transfer the storage of the vehicle to another municipality depending on project needs. The municipality who has possession of the vehicle at any given time shall be responsible for properly equipping, operating, and maintaining the All-Terrain Emergency Vehicle and be responsible for repairing or replacing any damaged equipment or supplies left in the vehicle during its use of the vehicle, which equipment and supplies to remain the sole property of the CITY. Vehicle is to remain dedicated to the PROJECT for the life of the vehicle, which is expected to be at least four years. At the conclusion of the four year period, the CITY shall assume sole ownership of the vehicle.

At all times, the vehicle shall be in the sole possession of the CITY with the CITY designated as the primary operator of the vehicle, however, the CITY shall share the usage of the All-Terrain Emergency Vehicle with all municipalities participating in their Mutual Aid Box Alarm System (known as MABAS) division. MABAS is a mutual aid measure that may be used for deploying fire, rescue and emergency medical services personnel in a multi-jurisdictional and/or multi-agency response. Equipment, personnel or services provided under MABAS are at no charge between municipalities. Expenses recovered from the responsible parties are equitably

distributed. In addition, emergency personnel that respond to the emergency remain employees of their initial department or agency. In addition to the uses described herein, the CITY has the right to use the vehicle for other events that occur within the general vicinity of the PROJECT area in the sole discretion of the CITY, with the main purpose of the vehicle to be used within the PROJECT area.

Basis of Payment

The CITY shall charge actual costs incurred and attributable to the work performed and described above under this agreement to the DEPARTMENT. The DEPARTMENT will provide to the CITY reimbursable funding for these functions in the amount of \$45,000. Total reimbursement to the CITY for traffic mitigation measures under this agreement will not exceed \$45,000 as detailed in Attachment A: City of West Allis Fire Department - Cost Estimate. Billings shall be directed by the CITY to the attention of Chris Hager, Wisconsin Department of Transportation, Southeast Region, 141 NW Barstow Street, P.O. Box 798, Waukesha, WI 53187-0798 and will include a statement of expenses supported by a description of items and services provided and expended. The DEPARTMENT shall pay the bill promptly upon receipt thereof.
