Subject: Appeal

Steve,

Per our phone conversation I would like to file an appeal of the decision of the planning commission in the August 24th meeting to deny Zignego Ready Mix the approval to construct 2 buildings and a sound wall. Per our phone conversation this email should get this matter on the agenda for the September 6th common council meeting. It is my belief that the planning commission denied Zignego's request unjustly. As one of the commission members questioned "so we are denying this to use as leverage in the lawsuit?" It is my belief that had there not been an ongoing lawsuit between Zignego Ready Mix and the City of West Allis, the planning commission would have approved Zignego's request, especially because it was approved prior to the meeting by staff.

A future email will ensue laying out more detailed reasons for my appeal. Please advise when the deadline is for this future email to be received.

Thanks

Bob Zignego
