

September 15, 2011

Neighbors:

I submitted a request to our alderman (Tom Lajsic) for a 2-hour parking restriction from the small city sidewalk on the north side of Grant Street to the corner of 90<sup>th</sup> Street and Grant Street (approximately 60 feet). He is more than willing to accommodate this request, but he needs the agreement of the affected neighbors.

If you are in agreement with this request, please sign below and list your address and I will send the signature document to him for action. If you do not agree, please return this document with a note that you do not agree. Please return this either way as soon as possible.

Thank you!

Kerry Gudlin

Hello Mike,

Hope you had a great vacation. Please see the attached petition requesting parking restrictions in the Grant Street neighborhood. Please have the proper ordinance introduced.

Tom

Re: Grant St reconstruction

Attached is a document with the signatures of neighbors who would be impacted by a 2-hour parking restriction sign. Please let me know if you need anything else from me. I look forward to having this restriction in place! Thank you so much.

Hello Kerry,

We would be happy to place the parking restrictions you request if that is truly what the neighborhood wants. I would request a petition requesting this signed by those immediately affected by these restrictions. That way we avoid the expense of putting signs up, only to have the residents affected call and request that we take them down. I just want to ensure that this is what the majority of the neighborhood wants.

Thank you,

Tom Lajsic

## Grant St reconstruction

Now that the Grant Street project is coming to a close, I'd like to request a 2-hour parking restriction on the northwest side of Grant Street and 90th Street. The sign would restrict about 50-60 feet (from the small city sidewalk west to the corner of 90th and Grant) at all times. This is a dangerous corner for traffic, especially school buses, waste management trucks, snow plows, and cars. I also have a lawn service/snow removal service that has a difficult time finding adequate parking for their equipment. Employees of West Allis Memorial Hospital and other businesses on Lincoln Avenue park all day on Grant Street and 90th Street, making it difficult for even the US Postal Service to park to deliver the mail. The Parking Enforcement vehicle already patrols the area, so no extra patrol would be needed.

Please consider this request. If this needs to be escalated to someone else, please let me know.  
Thank you for your attention to this matter. (The street looks great!)
