Subject: Tomorrow's Hearing 2/2/21 - Concrete Construction

Hello,

I am a resident on 62nd and Washington. I have a comment regarding the payment plan. I understand the need to repair the sidewalks and agree it should be completed. However, especially in the time of a pandemic, I do not feel most residents (including myself) have extra funds lying around for this expenditure. I see there is a proposed payment plan option, which seems fair, except for the interest rates. It does not seem right that we will have to pay a 4% interest for a project we did not all propose. I am all for reconstructing our neighborhood, but do not think we should have to pay interest for a payment plan. Especially not a rate in excess the current prime interest rate of 3.25%.

Thank you in advance for addressing this concern.

Proud WA resident,
Amy Medrano
