RE: **Communication from the City Engineer Regarding Negotiations with Milwaukee County on the National/Oklahoma Avenues Intersection Project**

We met with Milwaukee County Transportation Officials recently to bring them up to date on the intersection project. We also mentioned that we would be asking for some participation from the County.

The County suggested that we send them a letter outlining the current estimates and the amount we would be requesting from the County. I would like to discuss what we have in mind for the County's share and other related issues.
