August 6, 2013

Mayor Dan Devine and Members of the Common Council
7525 W. Greenfield Ave.
West Allis, WI 53214

Honorable Mayor and Council Members:

I have attached for your review a description of the Sharrows pavement marking we would like to implement on City streets. Sharrows are pavement markings installed in travel lanes reminding motorists that they should expect to see and share the road with bicyclists by slowing down and passing only when safe, giving at least three feet of clearance when passing.

The attached brochure will answer many of the questions you and other motorists may have about this new pavement marking.

The City would like to award a contract at the September 3, 2013 Council meeting to paint approximately 70 Sharrows with epoxy paint on city streets such as S. 60 St. and S. 76 St.

This painting is anticipated to cost \$20,000 (\$200 per sharrow) and would be funded with an already-approved 2013 Community Development Block Grant fund for Bicycle Infrastructure.

If you have additional questions, feel free to reach me at 414-302-8462. Thank you for your consideration of this proposal.

Sincerely,

A handwritten signature in blue ink that reads "John F. Stibal".

John F. Stibal
Director of Development
