

Petition for annual seasonal closure of the north end of S 110th St and W Theo Trecker Way during the months of summer

Background:

Currently, observed for the last 5 years, the traffic increased more during the summer months in the residential neighborhood on S 110th Street between W Walker St and W Theo Trecker Way. The seasonal nature of this activity is likely from observed cruisers off of the adjacent Highway 100. This is further evidenced by appearance of trash, cans, bottles and cigarette butts left both in lots and curbside when not previously there the night before. Increased traffic leads to safety concerns for our residents, especially the youngest family members.

The City of West Allis has demonstrated precedent for temporary closure of one end of a street in the past in response to residents concerns over high volume of cruising traffic. Each summer the intersection of S 109th St and W Theo Trecker Way has an annual, seasonal closure with stone barricades which has been observed for at least the last 5 summers and reportedly longer in conversations with other neighbors and Alder-persons.

Petition:

We, the undersigned concerned citizens affix our signatures in support of an annual seasonal closure of the north end of S 110th St and W Theo Trecker Way during the months of summer intending to decrease the traffic from cruising drivers and the risks this brings to our neighborhood if left unattended.
