Resolution approving an increase in the stormwater management system user charge.

WHEREAS, Section 1.075(4)(a) authorizes the Common Council to revise stormwater management system user charges, as necessary, to insure that the system generates adequate revenues to fund the management of the City's stormwater system, to include but not be limited to, investment and reinvestment in, and the maintenance and improvement of new and existing infrastructures, and other improvements to the system that will reduce flooding and urban non-point source pollution in stormwater run-off consistent with federal and state regulations; and,
