SECTION 1:

Executive Summary

DESCRIPTION OF DISTRICT

Tax Incremental District (“TID”) No. 22 (“District”) is a proposed blighted area district comprising approximately 2.84 acres located in the eastern part of the City generally bounded by W Lapham Street to the north, S 66th Street to the east, W Mitchell Street to the south, and the Chicago and North Western Railway railroad tracks to the west. The District will partially overlap the existing TID No. 15 which was originally created to support mixed-use redevelopment on former industrial land that had become vacant and obsolete. However, TID No. 15 will reach the end of its allowable life with the 2044 tax collection leaving insufficient time for the newly proposed project to be economically feasible. The City is subsequently requesting creation of a new district that partially overlaps TID No. 15.

The District will be created to pay the costs of development incentives for SoNa Lofts Phase II (the “Project”) to be developed by Mandel Group (“Developer”). The City will also consider funding certain public infrastructure improvements within the ½ mile surrounding the District to the extent revenues are available. In addition to the incremental property value that will be created, the City expects the Project will generate positive secondary impacts in the community such as result in the redevelopment of a blighted area, creation of market rate multi-family housing to meet market demand, and provision of employment and commercial opportunities related to the construction and operation of the Project.

AUTHORITY

The City is creating the District under the provisions of Wis. Stat. § 66.1105.

ESTIMATED TOTAL PROJECT COST EXPENDITURES

The City anticipates making total expenditures of approximately \$12.95 million (“Project Costs”) to undertake the projects listed in this Project Plan (“Plan”). Project Costs include an estimated \$10.60 million in “pay as you go” development incentives, \$1.50 million in contingent projects (as further detailed in Section 8), and \$850,000 in costs related to the creation and administration of the District over its life.

INCREMENTAL VALUATION

The City projects that new land and improvements value of approximately \$23.85 million will result from the Project. Creation of this additional value will be made possible by the Project Costs made within the District. A table

detailing assumptions as to the development timing and associated values is included in the Economic Feasibility Study located within this Plan.

EXPECTED TERMINATION OF DISTRICT

Based on the Economic Feasibility Study located within Section 9 of this Plan, the City anticipates that the District will generate sufficient tax increment to pay all Project Costs within 22 of its allowable 27 years.

SUMMARY OF FINDINGS

As required by Wis. Stat. § 66.1105, and as documented in this Plan and the exhibits contained and referenced herein, the following findings are made:

1. That “but for” the creation of this District, the development projected to occur as detailed in this Plan: 1) would not occur; or 2) would not occur in the manner, at the values, or within the timeframe desired by the City. In reaching this determination, the City has considered a review of the Project’s sources and uses, and cash flow proforma. The Project, without TIF assistance, appears to generate a stabilized Yield on Cost (“YOC”) of 6.0% and a 10-Year Leveraged Internal Rate of Return (“LIRR”) of 10.4%. Projects of this type typically require a YOC of 6.0%-7.0% and a LIRR of 12%-15%. The Developer has requested that the City provide incentive payments on a pay as you go basis with an estimated present value of \$5,611,317. (Projected future value payments of \$10,599,094 over 22 years). Provision of the requested assistance would improve the Project’s return on investment to a YOC of 7.8% at stabilization and a LIRR of 15.4%. Return thresholds are based on SB Friedman’s recent review of comparable projects and industry benchmarks.
2. The economic benefits of the District, as measured by increased employment, business and personal income, and property value, are sufficient to compensate for the cost of the improvements. In making this determination, the City has considered that in addition to the incremental value expected to be created, the Project will result in the redevelopment of a blighted area, creation of market rate multi-family housing to meet market demand, and provision of employment and commercial opportunities related to the construction and operation of the Project.
3. The benefits of the proposal outweigh the anticipated tax increments to be paid by the owners of property in the overlying taxing jurisdictions. As required by Wis. Stat. § 66.1105(4)(i)4., a calculation of the share of projected tax increments estimated to be paid by the owners of property in the overlying taxing jurisdictions has been prepared and can be found in this Plan. However, because the Project would not occur without the use of tax incremental financing, these tax increments would not be paid but for

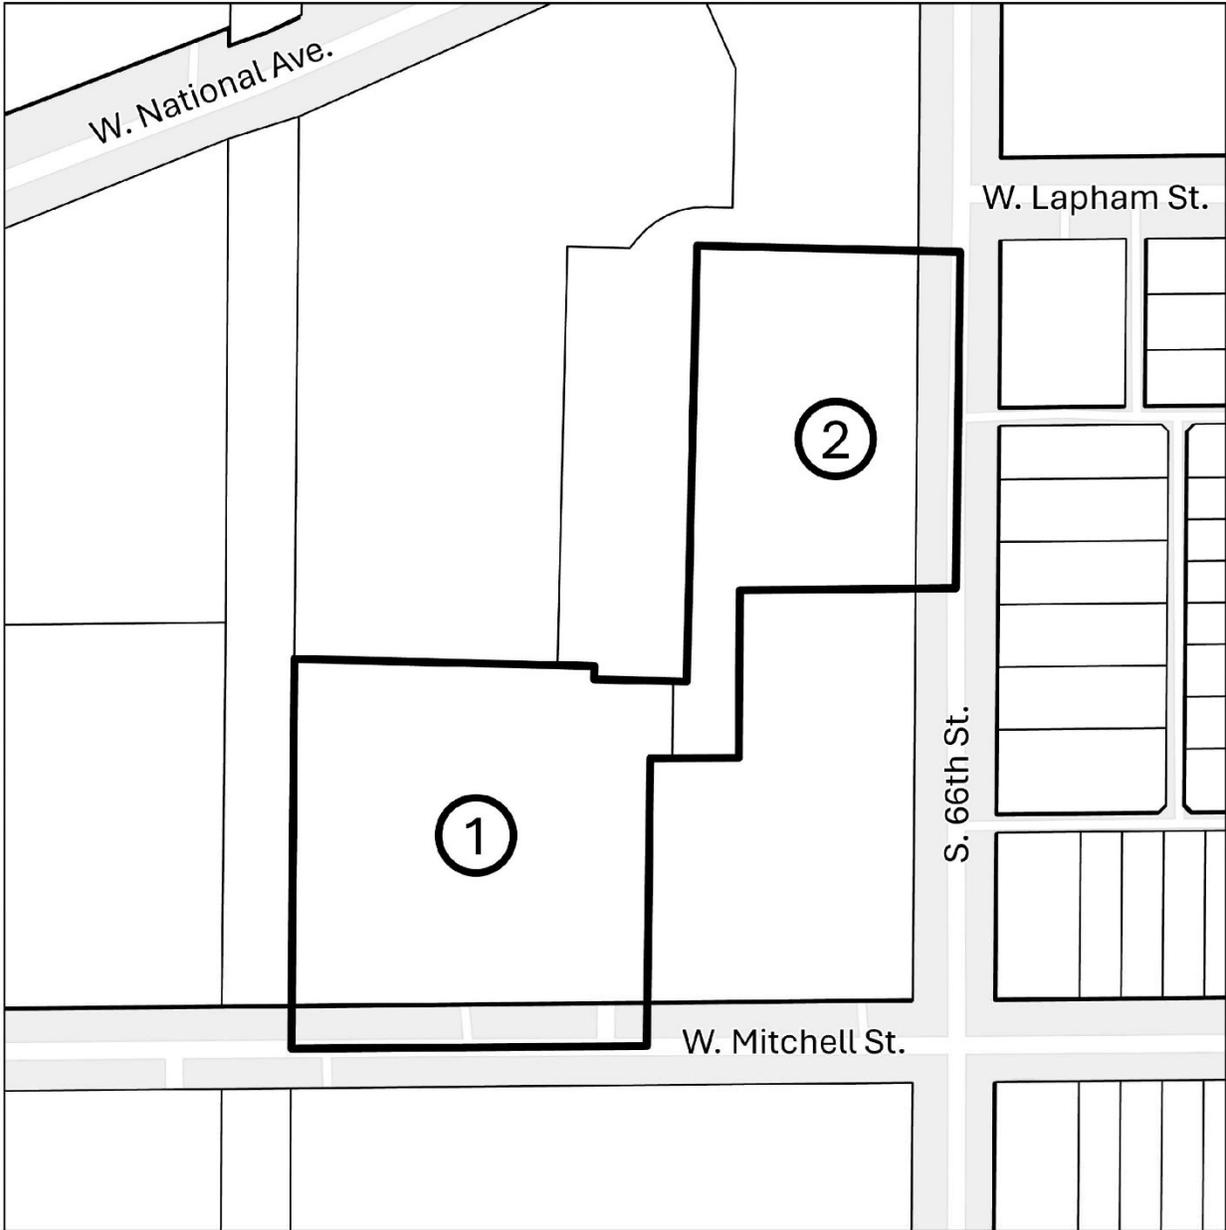

creation of the District. Accordingly, the City finds that the benefits expected to be realized as set forth in this Plan outweigh the value of the tax increments to be invested in the Project.

4. Not less than 50% by area of the real property within the District is a blighted area as defined by Wis. Stat. § 66.1105(2)(ae)1.
5. Based on the foregoing finding, the District is designated as a blighted area district.
6. The Project Costs relate directly to the elimination of blight in the District, consistent with the purpose for which the District is created.
7. Improvements to be made in the District are likely to significantly enhance the value of substantially all of the other real property in the District.
8. The equalized value of taxable property in the District, plus the incremental value of all existing tax incremental districts within the City does not exceed 12% of the total equalized value of taxable property within the City.
9. The City estimates that less than 35% of the territory within the District will be devoted to retail business at the end of the District's maximum expenditure period, pursuant to Wis. Stat. § 66.1105(5)(b).
10. That there are no parcels to be included within the District that were annexed by the City within the preceding three-year period.
11. The Plan for the District is feasible and is in conformity with the Master Plan of the City.

SECTION 4: Preliminary Parcel List and Analysis

Parcel Data

The District will consist of the tax parcels described in the following table:

Map Reference Number	Parcel Number	Address	Owner	Acres	Acres	Blighted Condition
					Blighted	
N/A	ROW Areas			0.35		
1	454-9006-000	6616 W Mitchell St	West Allis CDA	1.46	1.46	Condition 2
2	454-0655-000	66 National Ave	West Allis CDA	1.03	1.03	Condition 2
TOTALS				2.84	2.49	

Percentage of TID Area Designated as Blighted (at least 50%)

88%

Both parcels are currently in TID 15 and will be overlapped by the District. Further, both parcels are currently owned by the West Allis Community Development Authority (the “CDA”) and are exempt for property tax purposes. The CDA acquired the properties on December 3, 2014 and therefore expects the District to have a base value of \$0.

Blighted Area

The District will be designated as a blighted area. Under the definition of blighted area found at Wis. Stat. § 66.1105(2)(ae), one qualifying criteria is: “An area which is predominantly open and which consists primarily of an abandoned highway corridor, as defined in s. 66.1333 (2m) (a), or that consists of land upon which buildings or structures have been demolished and which because of obsolete platting, diversity of ownership, deterioration of structures or of site improvements, or otherwise, substantially impairs or arrests the sound growth of the community.”

Specific blighting conditions include:

- The structures located within the District were functionally obsolete and have since been demolished prior to District creation creating an area that is predominantly open.
- The obsolete platting and deterioration of site improvements substantially impairs the sound growth of the community.

In total, 88% of the territory to be included in the District is designated as blighted therefore qualifying it as a blighted area district.

SECTION 5: Equalized Value Test

The following calculations demonstrate that the City expects to be in compliance with Wis. Stat. § 66.1105(4)(gm)4.c., which requires that the equalized value of the taxable property in the proposed District, plus the value increment of all existing tax incremental districts, does not exceed 12% of the total equalized value of taxable property within the City. Both parcels are owned by the Community Development Authority and thereby tax-exempt. Further, both parcels are currently within Tax Incremental District No. 15.

Calculation of City Equalized Value Limit

City TID IN Equalized Value (Jan. 1, 2025)	\$	6,406,506,900
TID Valuation Limit @ 12% of Above Value	\$	768,780,828

Calculation of Value Subject to Limit

Estimated Base Value of Territory to be Included in District	\$	-
Incremental Value of Existing Districts (Jan. 1, 2025)	\$	355,701,300
Less: Value of Underlying TID 15 Parcels	\$	-
Total Value Subject to 12% Valuation Limit	\$	355,701,300
Total Percentage of TID IN Equalized Value		5.55%
Residual Value Capacity of TID IN Equalized Value	\$	413,079,528

The equalized value of the increment of existing tax incremental districts within the City totals \$355,701,300. This value is less than the maximum of \$768,780,828 in equalized value that is permitted for the City.

SECTION 6: Statement Listing the Kind, Number and Location of All Proposed Public Works or Improvements Within the District

Project Costs are any expenditure made, estimated to be made, or monetary obligations incurred or estimated to be incurred as outlined in this Plan. Project Costs will be diminished by any income, special assessments or other revenues, including user fees or charges, other than tax increments, received or reasonably expected to be received in connection with the implementation of the Plan. If Project Costs incurred benefit territory outside the District, a proportionate share of the cost is not a Project Cost. Costs identified in this Plan are preliminary estimates made prior to design considerations and are subject to change after planning, design and construction is completed.

With all Project Costs, the costs of engineering, design, survey, inspection, materials, construction, restoring property to its original condition, apparatus necessary for public works, legal and other consultant fees, testing, environmental studies, permits, updating City ordinances and plans, judgments or claims for damages and other expenses are included as Project Costs.

The following is a list of public works and other tax incremental financing eligible Project Costs that the City expects to make, or may need to make, in conjunction with the implementation of the District's Plan. The map found in Section 7 of this Plan along with the Detailed List of Project Costs found in Section 8 provide additional information as to the kind, number and location of potential Project Costs.

Property, Right-of-Way and Easement Acquisition

Acquisition of Rights-of-Way

The City may need to acquire property to allow for installation of streets, driveways, sidewalks, utilities, stormwater management practices and other public infrastructure. Costs incurred by the City to identify, negotiate and acquire rights-of-way are eligible Project Costs.

Acquisition of Easements

The City may need to acquire temporary or permanent easements to allow for installation and maintenance of streets, driveways, sidewalks, utilities, stormwater management practices and other public infrastructure. Costs incurred by the City to identify, negotiate and acquire easement rights are eligible Project Costs.

Environmental Audits and Remediation

If it becomes necessary to evaluate any land or improvement within the District, any cost incurred by the City related to environmental audits, testing, and remediation are eligible Project Costs.

Streets and Streetscape

Street Improvements

To allow development to occur, the City may need to construct or reconstruct streets, highways, alleys, access drives and parking areas. Eligible Project Costs include, but are not limited to: excavation; removal or placement of fill; construction of road base; asphalt or concrete paving or repaving; installation of curb and gutter; installation of sidewalks and bicycle lanes; installation of culverts, box culverts and bridges; rail crossings and signals; utility relocation, to include burying overhead utility lines; street lighting; installation of traffic control signage and traffic signals; pavement marking; right-of-way restoration; installation of retaining walls; and installation of fences, berms, and landscaping.

Streetscaping and Landscaping

To attract development consistent with the objectives of this Plan, the City may install amenities to enhance development sites, rights-of-way and other public spaces. These amenities include, but are not limited to: landscaping; lighting of streets, sidewalks, parking areas and public areas; installation of planters, benches, clocks, tree rings, trash receptacles and similar items; and installation of brick or other decorative walks, terraces and street crossings. These and any other similar amenities installed by the City are eligible Project Costs.

Community Development

Cash Grants (Development Incentives)

The City may enter into agreements with property owners, lessees, or developers of land located within the District for sharing costs to encourage the desired kind of improvements and assure tax base is generated sufficient to recover Project Costs. No cash grants will be provided until the City executes a developer agreement with the recipient of the cash grant. Any payments of cash grants made by the City are eligible Project Costs.

Contribution to Community Development Authority (CDA)

As provided for in Wis. Stat. § 66.1105(2)(f)1.h and Wis. Stat. § 66.1333(13), the City may provide funds to its CDA to be used for administration, planning operations, and capital costs, including but not limited to real property acquisition, related to the purposes for which it was established in furtherance of any redevelopment or urban renewal project. Funds provided to the CDA for this purpose are eligible Project Costs.

Revolving Loan/Grant Program (Development Incentives)

To encourage private development consistent with the objectives of this Plan, the City, through its CDA, may provide loans or grants to eligible property owners in the District. Eligible improvements will be those that are likely to improve the value of the property, enhance the visual appearance of the property and surrounding area, correct safety deficiencies, or as otherwise specified by the CDA in the program manual. Any funds returned to the CDA from the repayment of loans made are not considered revenues to the District, and will not be used to offset District Project Costs. Instead, these funds may be placed into a revolving fund and will continue to be used for the program purposes stated above. Any funds provided to the CDA for purposes of implementing this program are considered eligible Project Costs.

Miscellaneous

Rail Spur

To allow for development, the City may incur costs for removal of a rail spur or other railway improvements to serve development sites located within the District.

Projects Outside the Tax Incremental District

Pursuant to Wis. Stat. § 66.1105(2)(f)1.n, the City may undertake projects within territory located within one-half mile of the boundary of the District provided that: 1) the project area is located within the City's corporate boundaries; and 2) the projects are approved by the Joint Review Board. The cost of projects completed outside the District pursuant to this section are eligible project costs, and may include any project cost that would otherwise be eligible if undertaken within the District. The City intends to make the following project cost expenditures outside the District:

Expenditure Type	Estimated Cost	Estimated Timing
Hank Aaron Multi-Use Trail Extension	\$600,000	Not later than 2048
Street Improvements on W National Ave	\$250,000	Not later than 2048
Housing & Other Economic Development Incentives	\$250,000	Not later than 2048
Total	\$1,100,000	

Professional Service and Organizational Costs

The costs of professional services rendered, and other costs incurred, in relation to the creation, administration and termination of the District, and the undertaking of the projects contained within this Plan, are eligible Project Costs. Professional services include but are not limited to: architectural; environmental; planning; engineering; legal; audit; financial; and the costs of informing the public with respect to the creation of the District and the implementation of the Plan.

Administrative Costs

The City may charge to the District as eligible Project Costs reasonable allocations of administrative costs, including, but not limited to, employee salaries. Costs allocated will bear a direct connection to the time spent by City employees relating to the implementation of the Plan.

Financing Costs

Interest expense, debt issuance expenses, redemption premiums, and any other fees and costs incurred in conjunction with obtaining financing for projects undertaken under this Plan are eligible Project Costs.

SECTION 8:

Detailed List of Estimated Project Costs

The following list identifies the Project Costs that the City currently expects to incur in implementing the District's Plan. All projects identified and related costs reflect the best estimates available as of the date of preparation of this Plan. All costs are preliminary estimates and may increase or decrease. Certain Project Costs listed may become unnecessary, and other Project Costs not currently identified may need to be made. (Section 6 details the general categories of eligible Project Costs). Changes in Project Cost totals or the types of Project Costs to be incurred will not require that this Plan be amended. This Plan is not meant to be a budget nor an appropriation of funds for specific Project Costs, but a framework within which to manage Project Costs.

Project ID	Project Name/Type	Est. Cost			Totals	1/2 Mile	Est. Timing
		Priority	Contingent ¹	Ongoing			
1	Development Incentives ²	10,599,094			10,599,094		2028-2049
2	Administration and Professional Services			848,227	848,227		2026-2054
3	Infrastructure Improvements at Public Spaces ³		750,000		750,000	600,000	NLT 2048
4	Street Improvements ⁴		500,000		500,000	250,000	NLT 2048
5	Housing/Other Economic Development Incentives		250,000		250,000	250,000	NLT 2048
Total Projects		10,599,094	1,500,000	848,227	12,947,321	1,100,000	

Notes:

- 1) The City may need to make improvements to other infrastructure within the District or the half-mile surrounding as a result of the Project. Whether improvements will be needed and when they may be needed is undetermined. Current cost estimates are included, but projects will only be funded from the District to the extent funds are available and the improvements are for the benefit of the District and needed to implement the Plan. The City may pro-rate the TID contribution to the projects to match costs to the benefit provided to the District.
- 2) Projected development incentive payments have a present value of \$5,611,317 using a 6.0% discount rate.
- 3) To include art, benches, multi-use paths, and other like projects.
- 4) To include bump outs, crosswalks, paint, and other like projects.

SECTION 9:

Economic Feasibility Study, Description of the Methods of Financing Estimated Project Costs and the Time When Related Costs or Monetary Obligations are to be Incurred

This Section includes a forecast of the valuation increases expected within the District, the associated tax increment collections, a summary of how Project Costs would be financed, and a projected cash flow demonstrating that the District is economically feasible.

Key Assumptions

The Project Costs the City plans to make are expected to create \$23.85 million in incremental value by January 1, 2028. Estimated valuations and timing for construction of the Project are included in Table 1. Assuming the City's current equalized TID Interim tax rate of \$20.90 per thousand of equalized value, and no economic appreciation or depreciation, the Project would generate \$14.09 million in incremental tax revenue over the 27-year term of the District as shown in Table 2.

Table 1 - Development Assumptions

Construction Year		SoNa Lofts Phase II ¹		Annual Total	Construction Year	
		Units	Total Value

Notes:
1) Tax rate shown is actual 2025/2026 rate per DOR Form PC-202 (Tax Increment Collection Worksheet).

Financing and Implementation

The District's Project Costs will primarily consist of a "pay as you go" development incentive, and administrative and professional services costs associated with the creation and administration of the District over its term.

The Developer has requested incentive payments to assist with securing a \$16.10 million private first mortgage. The present value of the request is \$5.61 million with an estimated future value of \$10.60 million assuming a 6.00% discount rate. The Project has a total estimated cost of \$26.84 million.

Initially, and prior to tax increment being generated, the City will advance cash to the District to pay for the cost of its creation and administration. Amounts advanced will be repaid and deducted from the first incentive payment which is expected to be paid in 2028. In each year thereafter, the City's administrative and professional service costs will be paid from the tax increment collection, with the balance of tax increment then going to the incentive payment.

If the District's financial performance exceeds the projections included in this Plan, the City may elect to utilize remaining District revenue to pay the cost of projects included in the continent project list included in Section 8 of this Plan, provided those costs are incurred prior to the end of the District's expenditure period.

Based on the cash flow exhibit (Table 3), it is expected that the District will recover the planned Project Costs in 22 of its allowable 27 years. The projected closure is based on the various assumptions noted in this Plan and will vary dependent on actual Project Costs incurred and the actual amount of tax increments collected.

Table 3 - Cash Flow

Year	Projected Revenues		Projected Expenditures			Balances			Year

Notes: NPV @ 6.00% \$5,611,317 PROJECTED CLOSURE YEAR

1) Annual MRO payment is based on 100% of increment less the annual administrative costs.
Assumes the 2028 payment is further reduced by the 2026 and 2027 administrative costs.

LEGEND:
 CALLABLE MATURITIES
 END OF EXP. PERIOD

SECTION 10: Annexed Property

A tax incremental district cannot include annexed territory unless at least three years have elapsed since the annexation, or certain other requirements are met. None of the property within the proposed District boundary was annexed during the past three years.

SECTION 11: Estimate of Property to Be Devoted to Retail Business

Pursuant to Wis. Stat. § 66.1105(5)(b), the City estimates that less than 35% of the territory within the District will be devoted to retail business at the end of the District's maximum expenditure period.

SECTION 12: Proposed Changes of Zoning Ordinances, Master Plan, Map, Building Codes and City Ordinances

Zoning Ordinances

The proposed Plan is in general conformance with the City's current zoning ordinances. Individual properties may require rezoning at the time of development.

Master (Comprehensive) Plan and Map

The proposed Plan is in general conformance with the City's Comprehensive Plan identifying the area as appropriate for mixed commercial and high density residential uses.

Building Codes and Ordinances

Development within the District will be required to conform to State Building Codes and will be subject to the City's permitting and inspection procedures. The proposed Plan conforms to all relevant State and local ordinances, plans, and codes. No changes to the existing regulations are proposed or needed.

SECTION 13: Statement of the Proposed Method for the Relocation of any Persons to be Displaced

Should implementation of this Plan require relocation of individuals or business operations, relocations will be handled in compliance with Wis. Stat. Chapter 32 and Wis. Admin. Code ADM 92.

SECTION 14: How Creation of the Tax Incremental District Promotes the Orderly Development of the City

Creation of the District and the implementation of the projects in its Plan will promote the orderly development of the City by creating opportunities for mixed use development and thereby eliminate blighting conditions in the District through the provision of appropriate financial incentives for private development projects. Through use of tax increment financing, the City can attract new investment that results in increased tax base. Development will occur in an orderly fashion in accordance with approved plans so that the Projects will be compatible with adjacent land uses. Development of new uses in the District will add to the tax base and will generate positive secondary impacts in the community such as the redevelopment of a blighted area, creation of market rate multi-family housing to meet market demand, and provision of employment and commercial opportunities related to the construction and operation of the Project.

SECTION 15:

List of Estimated Non-Project Costs

Non-project costs are public works projects which only partly benefit the District. Costs incurred that do not benefit the District may not be paid with tax increments. Examples of non-project costs are:

- A public improvement made within the District that also benefits property outside the District. That portion of the total Project Costs allocable to properties outside of the District would be a non-project cost.
- A public improvement made outside the District that only partially benefits property within the District. That portion of the total Project Costs allocable to properties outside of the District would be a non-project cost.
- Projects undertaken within the District as part of the implementation of this Project Plan, the costs of which are paid fully or in part by impact fees, grants, special assessments, or revenues other than tax increments.

No improvements to be made within the District will benefit property outside the District. Furthermore, there will be no improvements made outside the District that will only partially benefit the District.

RE: Project Plan for Tax Incremental District No. 22

Dear Mayor:

Wisconsin Statute 66.1105(4)(f) requires that a project plan for a tax incremental financing district include an opinion provided by the City Attorney advising as to whether the plan is complete and complies with Wisconsin Statute 66.1105.

As City Attorney for the City of West Allis, I have been asked to review the above- referenced Project Plan for compliance with the applicable statutory requirements. Based upon my review, in my opinion, the Project Plan for the City of West Allis Tax Incremental District No. 22 is complete and complies with the provisions of Wisconsin Statute 66.1105.

Sincerely,

Kail Decker
City Attorney

SECTION 17: Calculation of the Share of Projected Tax Increments Estimated to be Paid by the Owners of Property in the Overlying Taxing Jurisdictions

The following projection is provided to meet the requirements of Wis. Stat. § 66.1105(4)(i)4. Allocation of future tax increments is based on the projections included in this Plan and assumes the same proportions as the actual breakdown of tax collections for the 2025/2026 levy year.

Revenue Year	Milwaukee					Total	Revenue Year
	Milwaukee County	County Metro Sewer District	City of West Allis	School District of West Allis	Technical College
