NOTICE OF CLAIM

Date of incident: 06/09/2025 Time of day: 12:00
Location: 99th and Harrison

Describe the circumstances of your claim here. You may attach additional sheets or exhibits. Some helpful information may be the police report, pictures of the incident or damage, a diagram of the location, a list of injuries, a list of property damage, names and contact information for witnesses to the incident, and any other information relevant to the circumstances.

On June 9th, at 1:54pm I received a call from Sara Diebitz, from the Sanitation Department, stating the recycling truck blew a hydraulic line from the top of the truck, and proceeded to completely cover my Silverado and the street in hydraulic fluid. (I will attach a picture of the street with my truck parked.) I went outside to talk to the last city employee on site and was told they used a degreaser to clean off the truck the best they could but wouldn't spray the bed because I had miscellaneous items in it. I was informed by Sara that I could have my truck detailed at my earliest convenience at the detail shop of my choice and to make a claim with the city after it was completed. During the detailing process, Dave from Perfect Shine Detailing informed me that the aluminum finish on my power running boards have blotching/staining from the oil or degreaser that was used to clean the truck off by the city employees. It is noted that these surfaces can be damaged somewhat easily with high ph chemicals or degreasers. Included in my claim are the 2 required quotes from 2 local dealerships to replace the running boards that were damaged and potential parts that typically break while trying to remove them. I am also including the bill from the detailing for reimbursement.

Detailing - \$378.00
Running board replacement:
Kunes Hope Chevy - \$2,610.36
Heiser Chevrolet - \$2,562.69
