

We the citizens of West Allis, petition the city to put the stoplights back on National Avenue and 65th St. Upon completion of construction stop signs have been put up where the stoplights once were. This neighborhood has a high concentration of older and disabled people who will have significant trouble crossing National Avenue with out stop lights. National Avenue is a very busy street and at times people drive very fast. The Farmers market is a nice amenity in West Allis and without a stop light to ensure the safety of walkers, access will be significantly reduced to many of the residents who live in surrounding apartment and condominium complexes.
