**Dear Mike;**

As you know, because of increasing production, testing, and maintenance costs, operating and maintaining an efficient water distribution system has become a necessity.

Since 1985, **WESTRUM LEAK DETECTION**, using the very latest in computerized leak detection technology, has provided leak detection surveys and emergency main break service calls all over the midwest, and can provide emergency service on a moments notice.

The evidence demonstrates that **EVERY** city can survey it's system **annually** at a very cost effective price. We stand ready to provide all your leak detection needs. Call us at **515-838-2222 (24) hr's a day** if you have any questions.

Enclosed is a proposal for a computerized leak detection survey for West Allis.

Sincerely ,

**Troy Westrum  
President**

**Computerized leak detection survey description.**

**1. Beginning in 2020,** Once a year all accessible hydrants and / or valves will be monitored as needed with sensitive listening transducers / amplifier equipment to determine if leakage is occurring.

**2.** All areas where leakage is confirmed will be further investigated with the computerized correlator to pinpoint the location of the leaks.

**3.** A report will be submitted containing detailed drawings of all leaks located, the estimated leak sizes, and savings resulting from the repair of the leaks.

**4. Westrum Leak Detection** will provide all equipment and personnel to accomplish the above.

**5.** The **city/utility** shall provide all personnel for traffic control, if needed, to successfully and safely complete the survey.
