CITY OF WEST ALLIS
CITY CLERK

To whom it may concern;

On August 11th I was parked outside my parents' house at 1626 South 93rd street in West Allis. I was inside the house when I heard a loud noise, I looked outside and my car had been hit by some sort of bulldozer. The man who backed into my car was very nice, apologized and took full responsibility. He called Linda Huske to come out and see what had happened. She called the police to get a report for the claim. That claim/report number is 16.032870. I was told to pay for any expenses out of pocket and the city would reimburse me.

I had to have the car towed but since I have AAA I just called them so I wouldn't have more out of pocket expenses. I had just purchased this car in June and the car was in perfect condition. I took my car to Holtz Motors in Hales Corners. It took about 2 weeks to get the car back and I was given a rental car to use during that time. The rental car was paid for by a credit I had from Holtz so I have no current bill for that. I had this rental car for over 2 weeks, which if you go off enterprise rental car the total for two weeks would be a minimum of 462 dollars.

I have included pictures of the damage and the bill from the repairs. I appreciated the city admitting fault to the accident but am still waiting on reimbursement as the repairs were put on a credit card of mine which is now gaining interest.

Thank you,

Nicholas Niemczyk
