

Proposal to stop cruisers from using 109th street.

Aldermen May and Barzak have been working with the city engineer and have come to what is felt as the solution.

Permanent barricades would be installed on 109th st. at the Theo Trecker end between the months of May to September, and a sign stating " No Outlet " would be put at the Walker end.

The Common Council still needs to approve the funds, but with the majority of us in agreement with the proposal it should go through.

Please sign if you agree.
