MEMORANDUM

TO: Robert Barwick
FROM: Jim Leu
DATE: June 13, 2019
SUBJECT: State Contract Vehicle Purchase for Water Utility

We would like to request the budgeted replacement of a three quarter ton pickup truck for the Water Utility. This vehicle will be replacing a 2009 unit that failed the attached vehicle condition report. The budgeted requested unit is a 2019 Dodge Ram 2500 4x2 regular cab pickup truck. It would be purchased through the State Purchasing Contract with Ewald Automotive Group for \$27,894. The buying power of the state contract allows municipalities the lowest price possible. Contact me with any questions or concerns.
