RE: **Communication from City Engineer Regarding 2009 Special Assessment Rates**

Even though we are not done with the 2008 construction season, we need to start planning for 2009. Attached is our proposed 2009 special assessment rates. The Engineering Department is suggesting an across-the-board increase of 5%. The Board has increased rates 5% for the last number of years. Even though it won't keep up with the raising costs of construction, we don't feel that it's a good idea to raise them too much in any one year.
