CITY OF WEST ALLIS
CITY CLERK

November 2, 2017

Committee Chair
Licensing and Health Committee

The purpose of this letter is to formally request a five year extension of the Noise Variance originally issued February 2, 2011 as amended and extended.

The basis for the extension request is the following.

1. To this point we have not found a cost effective solution for muffling further the noise that the dust collector pulsers makes.
2. As agreed we turn the pulsers off for the period of time between 10:00PM and 7:00 AM daily. This process is controlled by an automated time system which is monitored to assure that we continue to fall within those requirements.
3. We implemented all of the other recommendations that were made even though the cost exceeded significantly the estimates that were developed at the time that the recommendations were made.

The Motor Castings Company will continue to research cost effective methods of reducing the noise impact in our neighborhood.

We agree to abide by all of the other requirements of the noise variance as extended.

Please contact me if you have any questions.

Sincerely;

Joseph Kempen
Motor Castings Company
