Subject: liquor license ordinance

Hi,

My name is Omer Audi owner and operator of Super Bottle Depot; corner of 76 street and Greenfield ave. I was just informed of the ordinance to repeal of Sub-Section 12.40 (1)(W) code relative to the liquor store license in the business district. My Issue is I just bought 7546 w Greenfield ave (The old Owl Imports) for that purpose. I made sure the city would allow a liquor store in that area prior to the purchase and the sole reason for the purchase was to transfer the license to the bigger building. If you have visited my current location you would understand why I would like to transfer, Its a small location.

This Ordinance not only will restrict me from transferring over, it will also cause me financial hardship, since I already purchased a 10 door walk in cooler that is in the building already.

I would have never bought this building had I known the city was to amend the license in any way. I have been a liquor store owner for 5 years and run a clean cut business. The downtown image would improve with us moving over there hence any other business or a vacant building. I feel this Ordinance change unfairly targets us in a way that limits our ability to service our customer and improve the business district.

Thank you for time and please vote NO to this anti business repeal.
