RE: City Attorney's Report of Claim

Dear Council Members:

The enclosed claim has been referred to this office in accordance with Section 3.05(8) of the Revised Municipal Code. This office has examined the facts of the claim and the applicable law. Our Opinion regarding liability is as follows:

It is the recommendation of this office that the following claim be denied:

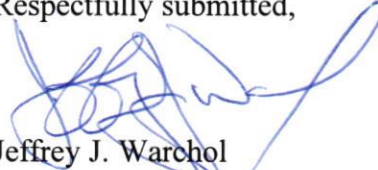

Scott and Sandra Blaha - Amount: \$14,000.00

This is a claim for property damage to various items contained within the claimant's basement at 1943 South 94th Street, West Allis, WI on or about June 19th, 2009, when the claimants had approximately two (2) feet of water in their basement from an alleged sewer back-up. On June 29th, 2009, the claimants filed a claim along with pictures and a list of contents and prices to replace the damaged items alleging negligence on the part of the City for a defective sewer system.

Our investigation into this claim revealed that the interceptor sewer maintained by MMSD became overloaded on the day in question from the unusual amount of rain in the area. This overloading prevented the interceptor sewer from properly discharging, which in turn, caused the City's system to become overloaded resulting in flooding in many areas throughout the City. The investigation further indicated that sewer systems in general are not designed to handle the extreme amount of water flow that occurred in this area from the rains in June of 2009. Although the storms have caused a great deal of stress and flooding for many people in the area, no negligence can be attributed to the City for this true act of God.

Based upon the above, it is the recommendation of the City Attorney's Office to deny this claim pursuant to the provisions of Wisconsin Municipal Claims Statute 893.80.

Respectfully submitted,

Jeffrey J. Warchol
Assistant City Attorney

CITY OF WEST ALLIS
CLERK/TREASURER

June 23, 2009

Dear members of the common council:

We are making a claim against the city to reclaim the damages to our basement and the contents of what we loss. We have enclosed pictures, a list of contents and prices we paid and will pay to replace all items

Sometime between midnight and 5am. on Friday June 19, 2009, our basement received 2-3 1/2 ft of sewer water back up from the city sewer. The germ infested water came up from our drain in the basement. This also happened last year June 2008. Both resulting in thousands of dollars in loss. not to mention the year long medical treatment and medication my husband received after catching MRSA from last years contaminated city sewer back up. This year he is dealing with a contagious infection from an unknown tick like bug- coincidentally while cleaning the germ infested/contaminated basement sewer back up.

My husband has a heart condition and I am disabled this is very stressful on us physically, emotionally, and financially. How many more city sewer backups will we have? Do we panic everytime there is a heavy rain?

This is hand written because we loss our computer in the germ infested city sewer water!

We appreciate your timely response to this matter.

Sincerely,

SJB
