QUARTERLY TRAFFIC VIOLATION AND ACCIDENT REPORT FORM

October - December, 2018

Accident Date	Dept/Division Affected	Incident Summary	Disciplinary Action	History
10/22/2018	Fire	While responding to the scene of a critical EMS incident the top of Med 63's patient compartment struck the awning of a trailer in a trailer park. This occurred in large part due to the fact that access was limited by previously positioned WAFD vehicles.	None – Investigation revealed that the trailer awning that was struck had been illegally extended over the roadway in violation of building code. Driver of striking vehicle was coached to prevent further incidents, but no disciplinary action was taken.	This awning had been struck at least three times in the past, but this was the first time that a determination was made that it had been illegally extended over the roadway.
11/15/2018	Fire	While attending a community event and attempting to position in a tight parking lot, Med 63 grazed a raised planter. Cosmetic damage was done to the ambulance. No damage was done to private property.	Coaching session	The driver involved has been employed for 18 months and had been involved in no previous vehicle accidents.
12/04/2018	Fire	While driving non-emergently to an assignment the Fire Inspector was struck by an auto that failed to yield the right-of-way. Striking vehicle was determined to be at fault.	No action taken as WAFD member was not at fault.	N/A
