Peterbilt Motors Engineering has verified that the PTO you have requested (Muncie Extended Shaft PTO CS10 or CS20) will interfere with the chassis as specified. We will furnish a FEPTO with a 9" bumper extension at no charge if desired and ordered as such. As an alternative, Peterbilt Motors Engineering is currently working on a project to modify the suspension components on the LH side of the truck to accommodate a Muncie CD10 and CD20 PTOs. This project is expected to be completed in time to allow for a May/June delivery window if the truck is ordered to be part of this project. There would be no charge for this option if desired.

Adjusted price of \$131,072.00 to include the following:

Five year engine warranty	1,700.00
Five year after treatment warranty	<u>650.00</u>
	2,350.00
