SUBJECT: Request for installation of fiber optic cable at Reservoir Park by CableCom LLC

DATE: June 29, 2017

Information Technology is requesting approval to have CableCom LLC install a fiber optic cable from the pumping station to the bathrooms at Reservoir Park for a cost of \$26,288.16. This fiber optic cable will be used to connect the cameras and bathroom door locks to the city computer network. It will allow remote viewing of the cameras from any city computer and the Police Department. It will also allow the remote operation of the door locks to the bathroom by city employees. The fiber optic cable will also be used to provide WiFi access to the internet from within the Park.

The price quoted was from State of Wisconsin DOT Contract #407498.

Sincerely,

Jim Jandovitz
Director of Information Technology
City of West Allis
