DATE: December 23, 2013
TO: Gene Baietto, Purchasing Manager
FROM: Jim Jandovitz, Manager of Information Technology
SUBJECT: Phoenix WDA Fire Software Sole Source

This letter is to recommend the sole source purchase of Wireless Digital Assistance (WDA) software for the Fire Department Rigs. This software connects to the Police Dispatch Center and will display call address, names, premise history, premise information, and much more information to the rigs. This system allows the fire department to time stamp their arrival times and will provide GPS locations of all their rigs.

This software is an additional component within the ProPhoenix Police Department Computer Aided Dispatch program and thus can only be supplied by ProPhoenix. No other mobile software will integrate into the ProPhoenix CAD System.

Sincerely,

Jim Jandovitz
Manager of Information Technology
City of West Allis
