Honorable Members of the  
West Allis Common Council  
7525 W. Greenfield Ave.  
West Allis WI 53214

Dear Common Council Members:

Attached for your information is a copy of a City of West Allis listing of projects for federal Economic Stimulus Funding. The list was prepared from ideas submitted to me by all City Department Heads. The fourteen (14) projects totaling an estimated \$27,612,000 in expenditures are each described in the listing. They address the kind of infrastructure, energy efficiency, environmental, and housing projects that have been preliminarily indicated by President-Elect Obama to be the kinds of quick start projects that could be possibly funded to address the economic and job situation in the country.

Our listing also includes a status of the projects into four categories: Engineered, Designed, Planned, and Feasibility. Tied to that is also the timing for the projected number of start days that it would take to get the construction to begin. Obviously, those projects already Engineered/Designed have a shorter time frame and could begin almost immediately and would address one of President-Elect Obama's key criteria. Those in the Planned/Feasibility category have a longer time frame to begin and therefore would address the goal of the Economic Stimulus Program to a lesser degree.

Thank you for your attention to this matter. If you have any questions or need further information or clarification, please feel free to contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read "Dan Devine".

Dan Devine,  
Mayor
