RE: Concrete Reconstruction Project

Dear Common Council Members:

Enclosed is a petition signed by ³³31 property owners opposed to the concrete reconstruction project for 85th and 86th Streets between Grant and Becher, and Grant Street between 84th and 90th. It should be noted that six homeowners support this project, and after numerous attempts approximately 30 were unable to be contacted.

The following reasons were among those given for opposing the project:

1. The City has stated that the cost to property owners would be the same whether the streets are paved with concrete or asphalt. (Asphalt would reduce costs 30-40%.)
2. The City has failed to inform property owners that the assessment charge recently mailed is only for the concrete work. It does not include assessment charges for sidewalks, storm sewers, sanitary sewer relay, and other water related repairs.
3. Almost all property owners complained that Grant Street would become a race track for Central HS students. In the past, the City has refused to put up a stop sign or install speed bumps. Numerous calls to police have not changed the problem of student speeding.
4. It is also suggested that speed bumps be installed on 85th and 86th Streets.
5. According to the Wisconsin statutes, the costs assessed for road repair should be fair and just. Is \$2,500 to \$3,000 per property a fair assessment? Also, the assessment for the sidewalks and sewer would be added to the property owners' water bill or other levy.

Until the above concerns are addressed this project, which is scheduled to begin sometime in spring of 2011, should be put on hold.

Sincerely,

Robert C. Braun
