**RE: Communication from Director of Public Works/City Engineer Requesting
Permission to Obtain a Number of Storm Water Easements**

We have been working with six property owners on storm water issues. In order to install the facilities, we need easements. Easements would be granted free of charge to the City. The work would be done with past policy. Work would be added to a future contract. Easements available at the Board meeting.

We are asking for authorization. Board acceptance of the easements will be by resolution and action.
