Dear Mike;

As you know, because of increasing production, testing, and maintenance costs, operating and maintaining an efficient water distribution system has become a necessity.

Since 1985, **WESTRUM LEAK DETECTION**, using the very latest in computerized leak detection technology, has provided leak detection surveys and emergency main break service calls all over the midwest, and can provide emergency service on a moments notice.

The evidence demonstrates that **EVERY** city can survey it's system **annually** at a very cost effective price. We stand ready to provide all your leak detection needs. Call us at **515-838-2222 (24) hr's a day** if you have any questions.

Enclosed is a proposal for a computerized leak detection survey for West Allis.

Sincerely ,

**Troy Westrum

Computerized leak detection survey description.

1. Beginning in 2020, Once a year all accessible hydrants and / or valves will be monitored as needed with sensitive listening transducers / amplifier equipment to determined if leakage is occurring.

2. All areas where leakage is confirmed will be further investigated with the computerized correlator to pinpoint the location of the leaks.

3. A report will be submitted containing detailed drawings of all leaks located, the estimated leak sizes, and savings resulting from the repair of the leaks.

4. Westrum Leak Detection will provide all equipment and personnel to accomplish the above.

5. The **city/utility** shall provide all personnel for traffic control, if needed, to successfully and safely complete the survey.

6. This proposal is for the year/years beginning in 2020.
