Subject: Legislative File ID# 2014-0206 J&S Auto

To the Safety & Development Committee and all concerned,

I have known and dealt with Jim Diehl (owner of J&S Accel) since 1983. I first met him (with my first car) when he was a mechanic at Certified Auto Service (a West Allis Company). When he started his own company, I continued having him work on all my vehicles - and he had always kept his business location in West Allis.

Jim (and his company) had earned my trust from day #1. He is a man of his word, and I believe him to be an honest, hard-working, reliable and trustworthy person and business owner. I have recommended his services to many, many people and have never has a bad review from them.

I believe Jim and J&S Accel remain as an asset business to West Allis, and I fully support him 100% in his visions & efforts to relocate his business to his proposed new location.

Thank you,
MARK VICENA
