MEMORANDUM

TO: Robert Barwick, Purchasing Division
FROM: Jim Leu, Fleet Services Superintendent
DATE: December 13, 2018
SUBJECT: Cooperative Purchase Agreement - Sourcewell

This is a memo to request the budgeted purchase of a 60,000 lb. GVW 2019 tri-axel roll off container hook truck. This is a multi-use piece of equipment that will be used to transport refuse debris from the DPW drop-off site compactor, recycling material, yard waste, concrete and variety other containers to the appropriate locations. This unit will be replacing a 20 year old truck that has high service hours and maintenance costs.

With the assistance of Robert Barwick in the Purchasing Division this budgeted tri-axel hook truck was selected for \$179,575 from Lakeside International Truck. Lakeside International is a Sourcewell cooperative purchasing member, formerly the National Joint Powers Association. It is the nation-wide buying power of Sourcewell that allows municipalities, like West Allis, to receive the best pricing possible. With the Sourcewell pricing and the local vendor support from Lakeside International I recommend the purchase of this new 2019 tri-axel container hook truck for the DPW Streets Division.

If there should be any questions or concerns you may contact me anytime.

Sincerely,

Jim Leu
Fleet Services Superintendent
