Explanation by Joseph Burtch, Assistant City Engineer.

Appearances:

Tod Reibow, 2194 S. 77 St., inquired about voluntary participation. He questioned the fees and when selling your home if the special assessment would be something handled between the seller and buyer. Mr. Reibow expressed his concern about a blockage taking place at his mother's home at S. 77th and Grant Streets and it is his opinion the blockage stems from the completed road construction.

Amos Mietz, 1556 S. 76 Street, commented about reduced clear water in the sanitary and lower flows. Mr. Mietz suggested pulling out illegal sump pumps to reduce water flow and cost to citizens. He commented on examples from Milwaukee and Madison and questioned if the City looked into insurance and grants that could be secured by the City.

Charles Mitchell, 1532 S. 93 St., commented on the \$40/year fee and asked the Council to consider the facts about the economy.

Brad Freberg, 1127 S. 115 St., questioned if this is because sewage is being dumped into Lake Michigan; commented on downtown Milwaukee and Shorewood which combines sanitary sewers with rain water and that should be taken care of first. Mr. Freberg asked what the prime problem for backups is when laterals are blocked.

Corinne A. Grapatin, 1503 S. 75 St., commented on her experiences with numerous sewer backups and the cost of each occurrence. Ms. Grapatin is in favor of the fees.

Charles Blank, 810 S. 58 St., is opposed to the fees and feels the city could do a better job with the sewer laterals; he questioned why the City isn't offering a loan to the people; and he suggested eliminating the water run off charge on the water bill and use those funds for the laterals.

Alan Marsch, 2467 S. 76 St., commented about the water charges; and asked the departments to take 1% off their budgets to be used for this program. He is opposed to the program.

Pat Morris, 2001 S. 105 St., supported the proposal, and commented on the investment into the community.

Ronald Johnston, 10184 W. Harrison Ave., commented on the piping that was cleaned on his street with a power washer and now water is coming up the lateral. Mr. Johnston supported the proposal.

Johanna Damm, 1630 S. 66 St., mentioned the fee is not a big concern and is thankful the City of West Allis is looking into this preventive measure. She questioned the MMSD charges for the overflow and asked if her water bill will decrease with the possible elimination of any overflows. She inquired about where the savings will be seen.

Joe Ticcioni, 1321 & 1323 S. 76 St., sought clarification if heavy rains are a concern or is this a fix to the deep tunnel that is not functioning as it should. He asked about the percentage of backups that are caused by rain; and outside of heavy rains how many failures are occurring. He questioned why the rehabilitation of 170 laterals/year based upon the idea of 20-30 lateral failures and since the laterals are on private property this would be the owner's responsibility. Mr. Ticcioni would like a guarantee that the monies for this fund won't be spent elsewhere. In his opinion he doesn't think the incentive is there, but he sees what is trying to be done and thinks it is poor choice to add another fee to address a problem by MMSD.

Glen Norton, 1026 S. 111 St., is in favor of the proposal due to the aging sewer laterals. He questioned the 6' distance from the foundation of the lateral lining and if there is reliable data on the lining.

Peggy Wittman, for Audrey Brown, 700 S. 56 St., is concerned about money being used elsewhere and the financial hardship.

Cheryl Rasmann, 1651 S. 100 St., is concerned about the fee and if the assessment will increase. She questioned if the fund will be earning interest; and if duplexes would be paying double fees.

Ryan Deal, 7241 W. Greenfield Ave., a West Allis business owner, questioned the opt-out option of this program, what happens if this program doesn't pass, and what are plans for the business properties.

Mark McGroarty, 805 S. 110 St., is concerned about water in the basement; and the potential cost for repair of laterals. He supported the proposal.

Anthony Menzia, 1139 S. 100 St., wanted clarification of the assessment amount he is responsible for paying. He suggested a ten-year cap so the fee can't be raised.

Barbara Houdek, 6330 W. Greenfield Ave., represents Six Points East Condominium complex, asked about the laterals for the condominium complex.

Joanne Oeming, 1622 S. 60 St., commented on the 60 Street street construction; the fees; if citizens homeowners insurance would cover lateral replacements; and is concerned about the funds being allocated only for this project.

Debra Jensen, 2232 S. 92 St., supported the proposal and knows that the lateral is her responsibility and how a problem may impact a neighbor.

Bill Sargent, 1022 S. 119 St., commended the City for looking into this issue as this is why he pays taxes. He supported the proposal.

Rachel Marsch, 2467 S. 76 St., opposed the proposal. She commented on MMSD raising the rates consistently; if this passes she would like to see the commercial and condominiums be included.

Gary Williams, 2908 S. 72 St., is in favor of the program; asked for a guarantee for no cost increase.

Bernie Gonzales, 726 S. 111 St., questioned if you sell your house would it be advantageous to have the lateral done because it would add value to your house, or would the realtor recommend work be done before you sell your house, or will it be required as a purchaser of the home that this work be done before the sale of the home.

Holly Kelly, 2039 S. 68 St., commented on her experience with a lateral failure; and the number of special fees/assessments the City has which are overwhelming and wondered what is the next program/fund that could come up in the future. She is in favor of levying a cap for the fees and remarked that this seems like beta testing and if so it should go to referendum.

Mark Tiegs, 2521 S. 98 St., questioned the engineering portion of the failures; concerned about the vegetation and the placement of the city tree between the sidewalk and the street.

Al Schimel, 2320-22 S. 95 St., questions why Waste Management is on the water bill and why is it not on the property bill. He asked if there are other sources (i.e. rain gutters, sump pumps) besides the laterals that go into the system.

Jeanna Barney, 1334 S. 76 St., commented on the quality of laterals of 50 years compared to the laterals of today. She questioned if the problems stem from work being done on the roadway, who would pay for the repair of the lateral.

Janice Burk, 2105 S. 110 St., commented on having water in the basement and appreciates the City is working on the problem.

Rose Madus, 1103 S. 57 St., would like to see this put to a referendum.

Stephanie Panosian, 1534 S. 76 St., doesn't see this program well planned out and hard to have an opinion without knowing all the facts.

David Guyette, 2022 S. 97 St., questioned the "palmer valves" and what effect does it have on storm water infiltration as he sees an influx of water with these valves. He sees this as being a contributor with the storm water sewer and wants to know if palmer valves are being addressed. He questioned the percentage of homes without a sump pump.

Gary Williams, 2908 S. 72 St., commented on the sump pump situation and the drainage between Milwaukee and West Allis. He commented on purchasing of insurance programs.

Alan Marsch, 2467 S. 76 Street, questioned the rain water versus the water being sent from the house.
