West Allis, WI. 53219**

Computerized leak detection survey description.

1. Beginning in 2016, once a year all accessible hydrants and /or valves will be monitored as needed with sensitive listening transducers / amplifier equipment to determine if leakage is occurring.

2. All areas where leakage is confirmed will be further investigated with the computerized correlator to pinpoint the location of the leaks.

3. A report will be submitted containing detailed drawings of all leaks located, the estimated leak sizes, and savings resulting from the repair of the leaks.

4. Westrum Leak Detection will provide all equipment and personnel to accomplish the above.

5. The city/utility shall provide all personnel for traffic control, if needed, to successfully and safely complete the survey.

6. This proposal is for the year of 2016.

OPTION #1 (100% of the distribution system in 2016)
SURVEY COST \$12,900.00
