Petition to have the 2 hour parking signs removed in the 64th Greenfield Area

We as a community would like the two hour parking signs removed in our area. The foundries have been torn down, and more to come. The signs were to prevent the foundry workers from parking in our area. The two hour parking signs have been wreaking havoc on our guests and family members that stay longer than 2 hours. There are a lot of multi-family units that do not have parking, although they have parking permits, this does not include day parking. Our area has quite a few that work nights and have to park on our streets during the day.
