**Subject:** Neighborhood gas station

Hello.

This is Kym Ali and I have kids that live here and it is very nice neighborhood. As soon as they open I am scared of the drug use and selling of drugs and there will be people hanging around at all times of night and may be more police presence in the neighborhood. I spoke with a few people and they also agree that this would be a bad idea. Please, please do not open this up. There is already gas stations on 76th st and 103rd st, so I think that this would not hold up because there are already gas stations nearby. I always see crime activity by the gas station on the 103rd st and I fear it will also happen if it this gas station opens. Thank you so much for your time!

Best Wishes,  
Kym Ali
