Regarding alley

To Rebecca Brill,

My name is Gabe Lerley and I am the owner of 1520122 So 71 St and have resided on 71 St with my brother for approximately 50 years at different times. We both agree it is a bad idea unless there is somehow access to 71 St through the parking lot like Aurora or Holy Assumption.

The only use I have for the alley is stopping in it to empty my garbage or recyclables during bad weather but I have off drivers during those times. I have seen the danger of left turns from either Orchard (they park close) or 70th St. (a rt turn from Nat. requires an almost parallel left turn to get into the alley and a left turn from the alley is particularly dangerous in my opinion.

Entrance and exits on 71 are a lot safer especially with the no right turn on red on Nat. When there are parades there will be only one entrance to the alley. I appreciate the concerns of the owner to be of the property for those who park in the lot but with the aid of a few cameras he should be able to charge the people who park there at night if he so chooses. Anyway thank you for allowing me to voice my concerns
