RE: City Attorney's Report of Claim

Dear Council Members:

The enclosed claim has been referred to this office in accordance with Section 3.05(8) of the Revised Municipal Code. This office has examined the facts of the claim and the applicable law. Our Opinion regarding liability is as follows:

It is the recommendation of this office that the following claim be denied:

Theresa Wolf - Amount: \$750.00

This is a claim for property damage to the claimant's vehicle that allegedly occurred on September 30th, 2009, in the 6500 block of West Becher Place in the City of West Allis. At said time and place, the claimant was heading eastbound on West Becher Place and claims a stone, that was propelled from a lawnmower operated by a City employee, struck the passenger rear door of her vehicle causing damage to the same. The claimant obtained estimates for repair of her vehicle and submitted a claim against the City on October 7th, 2009.

Our investigation of this claim found the allegations as described by the claimant to be sketchy at best. First, supposedly the rear passenger door of the vehicle was struck. It seems odd that the claimant could be in a position to actually see a stone propel out of a lawnmower and then strike the opposite side of the vehicle. Second, the claimant did not stop to investigate what occurred or speak to the City workers after the incident, which is usually the case with these types of claims. Instead, the claimant traveled home and then called the City yards making it difficult for the City to pinpoint the exact time and location of the incident. Third, both City employees that were cutting grass on the day in question indicated that they did not have the lawnmower chute pointing towards the street and neither recalls striking anything that caused a rock to propel out of a mower. Finally, although the claimant claims that her passenger rear door was struck, one of her estimates is for repairing the front passenger door, as well as the rear door.

The facts simply do not support negligence on the part of the City in this case. If something did strike the claimant's rear door causing a nick or scratching, it simply could have been done by any kind of debris on the road that was hit by the claimant or another vehicle, etc. causing it to bounce up and strike the claimant's vehicle. We simply are unable to substantiate what occurred in this case and neither is the claimant with satisfactory evidence.

Based upon the above, it is the recommendation of the City Attorney's Office to deny this claim pursuant to the provisions of Wisconsin Municipal Claims Statute 893.80.

Respectfully submitted,

Jeffrey J. Warchol
Assistant City Attorney

Dear Mr. Scott Post:

I spoke with Mike from the Forestry Department (414-302-8811) who asked that I contact you regarding a situation that occurred about 7:45 a.m. on Wednesday, September 30, 2009.

I was traveling east on W. Becher Place , where a city employee was mowing around a light pole located just to the west of the rail road tracks (marked at the 6501 block). He basically had the mower on two (of the four) wheels just zipping around. As I passed, a stone flew from the mower and hit the rear passenger door on my vehicle. I pulled over when safe to access the damage and immediately contacted the city. As mentioned earlier, I was connected to Mike. He stated three estimates are required, and they are attached, and to note it was the "city of West Allis mowing crew". Please note that all three places stated that my car would be in repair for two to three days; car rental quotes are also attached.

Thanking you in advance for your help in this matter. Please let me know the next step to take.
