Recall Bulletins

Nat'l. Highway Traffic Safety Admin (US) has issued a total of 1 recall bulletin that may apply to this vehicle.

NHTSA ID Number 05V379000

Date Issued 08/29/05

Quantity Affected 804,000

Defect Certain pickup trucks and sport utility vehicles may experience unwanted antilock brake system (ABS) activation. This condition is more likely to occur in environmentally corrosive areas. This recall will be launched in the "salt belt" states of Connecticut, Illinois, Indiana, Massachusetts, Maine, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont and West Virginia only. This can cause increased stopping distances during low-speed brake applications, which could result in a crash.

Remedy Dealers are to remove the wheel speed sensor and thoroughly clean the wheel speed sensor mounting surface on the bearing, apply rust inhibitor to the cleaned surface, grease the mounting surface, reinstall the wheel speed sensor, and check the peak-to-peak output voltage to ensure the wheel speed signal is within specifications. The manufacturer has not yet provided an owner notification schedule. Owners should contact Chevrolet at 1-800-630-2438 or GMC at 1-866-996-9463.
