

**City of West Allis**  
**Geographic Information System**

---

April 12, 2018

To the Common Council,

This letter is to recommend that we renew our single-source purchase of the Small Government License Agreement (SGELA) with Environmental Systems Research Institute, Inc. (ERSI). The City of West Allis has received public recognition for the strength of its Geographic Information Systems (GIS) program. A key vendor relationship supporting our GIS practice is with ESRI. This is the only vendor that sells the specific products and services we need for our existing ESRI GIS platform. We have been a customer of ESRI's since 2006 without any issues, and their commitment to help and support our needs has been outstanding without any incidents or issues.

The terms, conditions and pricing of this agreement are consistent with the three year agreement we signed back in 2015. I respectfully request your approval to renew our agreement with ESRI. The funding to pay the 2018 portion of the agreement is contained within the IT operating budget.

Thank you.

Tony Warkoczewski  
Director of Information Technology  
City of West Allis

Patrick Walker  
GIS Supervisor  
City of West Allis
