Memorandum

TO: Board of Public Works

FROM: Michael Lewis, Director of Public Works/City Engineer

DATE: August 1, 2014

RE: **Communication from the Director of Public Works/City Engineer updating the Board of Public Works on installing brine facilities.**

We want to update the Board on our continuing study of brine facilities and the funding sources on Tuesday night. Related materials will be e-mailed before the meeting. Preliminary investigation shows a payback period of five years or less just on salt use alone, with better service, less overtime and less equipment wear and tear.
