

Green Infrastructure Funding Agreement G98005P159
Green Solutions – West Allis - Bioswale Bump Outs

1. The Parties

This Agreement is between the Milwaukee Metropolitan Sewerage District (District), located at 260 West Seeboth Street, Milwaukee, Wisconsin 53204-1446, and the City of West Allis (West Allis), located at 7525 West Greenfield Avenue, West Allis, Wisconsin 53214.

2. Basis for this Agreement

- A. Wisconsin law authorizes any municipality to establish an intergovernmental cooperation agreement with another municipality for the furnishing of services (Wis. Stats. § 66.0301).
- B. The District is responsible for collecting and treating wastewater from locally owned sewerage systems in the District's service area.
- C. During wet weather, stormwater enters the sewerage system, increasing the volume of wastewater the District must collect and treat.
- D. During wet weather, stormwater directly enters surface water, increasing pollution levels in those waterways and increasing the risk of flooding.
- E. Green Infrastructure (GI) such as constructed wetlands, rain gardens, green roofs, bioswales, and porous pavements, works to reduce the volume of stormwater in the sewerage system and the amount of pollutants discharged to surface waters.
- F. The District's Wisconsin Pollutant Discharge Elimination System (WPDES) permit includes a goal of 50 million gallons of GI capture capacity.
- G. The District wishes to expedite the amount of GI installed in its service area and this Agreement includes plans to install GI that supports the District's GI goals.

3. Date of Agreement

This Agreement becomes effective immediately upon the date of last signature below and ends when West Allis receives final payment from the District under this Agreement or when the parties terminate this Agreement according to Section 14 of this Agreement.

4. District Funding

The District will reimburse West Allis for the cost of the GI Project described in the attached project description (Project), up to \$34,880. The District will provide funding after the District receives the Baseline Report and the Maintenance Covenant.

5. Location of Project

The Project will be located in the intersection of South 62nd Street and West Lapham Street as further defined in the Project description as attached.

6. Baseline Report

After completion of the Project, West Allis will provide a Baseline Report using forms provided or approved by the District. The Baseline Report will include:

- A. A site drawing and topographical map showing the Project as completed with GI assets defined;
- B. Design specifications for the Project, including rainwater capture capacity (maximum per storm) and other information regarding runoff rate reduction or pollutant capture;
- C. A tabulation of the bids received, including bidder name and price;
- D. A copy of the executed construction contract(s) and a list of all permits collected during the Project construction process;
- E. A legal description of the property where the Project is located, including parcel identification numbers, if a conservation easement is required;
- F. Photographs of the Project during construction and upon Project completion;
- G. An operations and maintenance plan including details on funding for operations and maintenance;
- H. An outreach and education strategy, including a description of events or activities completed or planned;
- I. An itemization of all construction costs with supporting documentation;
- J. A Small, Veterans, Women, and Minority Business Enterprise (SWMBE) and Equal Employment Opportunity (EEO) Report as attached and made part of this Agreement;
- K. An Economic Impact Report showing the total number of people and the estimated number of hours worked on the design and construction of the Project by West Allis, and any of its consultants, contractors, and/or volunteers that worked on the Project; and
- L. Lessons Learned

7. Procedure for Payment

West Allis will submit an invoice to the District for the amount to be reimbursed. The invoice will document all costs to be reimbursed. Invoices from consultants will provide: their hourly billing rates, if applicable; the hours worked, by individual; and a summary of the tasks accomplished.

West Allis will send the Baseline Report and the invoice to:

Andy Kaminski, Senior Project Manager
Milwaukee Metropolitan Sewerage District
260 West Seeboth Street
Milwaukee, Wisconsin 53204-1446
AKaminski@mmsd.com

The District will not provide reimbursement until the Project is complete and the District has received all required deliverables.

8. Changes in the Project and Modifications to the Agreement

Any changes to the Project must be approved by the District in writing in advance. The District will not reimburse for work that is not described in the original Project description unless West Allis obtains prior written approval from the District.

9. Modifications to this Agreement

Any modifications to this Agreement will be in writing and signed by both parties.

10. Project Maintenance

West Allis will maintain the GI for at least 10 years. If the GI fails to perform as anticipated or if maintaining the GI is not feasible, then West Allis will provide a report to the District explaining the failure of the GI or why maintenance is not feasible. Failure to maintain the GI will make West Allis ineligible for future District funding until West Allis corrects any maintenance problems associated with the GI.

11. Permits, Certificates, and Licenses

West Allis is solely responsible for compliance with all federal, state, and local laws and any required permits, certificates, or licenses for the Project.

12. Procurement

West Allis must select professional service providers according to the ordinances and policies of West Allis. West Allis must procure all non-professional services, such as construction, sewer inspection, and post-construction restoration, according to State of Wisconsin statutes and regulations and the ordinances and policies of West Allis. Whenever work valued over \$25,000 is procured without the use of a public sealed bidding process, the District may request, and West Allis must provide, an opinion from a licensed attorney representing West Allis explaining why the procurement complies with State of Wisconsin law and the ordinances of West Allis.

13. Responsibility for Work, Insurance, and Indemnification

West Allis is solely responsible for planning, design, construction, and maintenance of the Project, including the selection of and payment for consultants, contractors, and materials.

The District will not provide any insurance coverage of any kind for the Project or West Allis as related to this Agreement.

West Allis will defend, indemnify, and hold harmless the District and its commissioners, employees, and agents against all damages, costs, liability, and expenses, including attorneys' fees and related disbursements, arising from or connected with the planning, design, construction, operation, or maintenance of the Project.

14. Terminating this Agreement

The District may terminate this Agreement at any time before the commencement of construction. After the commencement of construction, the District may terminate this Agreement only for good cause including, but not limited to, breach of this Agreement by West Allis. West Allis may terminate this Agreement at any time but West Allis will not receive any payment from the District if West Allis does not complete the Project. The District reserves the right to pursue any other remedies available under the law in the event of such termination.

15. Maintenance Covenant

After the completion of construction of the Project, the District shall receive a Maintenance Covenant from West Allis. The Maintenance Covenant will be limited to the GI installed through the Project. The term of the Maintenance Covenant will be 10 years. West Allis will cooperate with the District to prepare the Maintenance Covenant.

16. Exclusive Agreement

This Agreement is the entire agreement between West Allis and the District for the Project other than the Maintenance Covenant to be provided to the District upon completion of the construction of the Project.

17. Severability

If a court holds any part of this Agreement unenforceable, then the remainder of the Agreement will continue in full force and effect.

18. Applicable Law

The laws of the State of Wisconsin apply to this Agreement.

19. Resolving Disputes

If a dispute arises under this Agreement, then the parties will try to resolve the dispute with the help of a mutually agreed-upon mediator in Milwaukee County. The parties will equally share the costs and fees associated with the mediation, other than attorneys' fees. If the dispute is not resolved within 30 days after mediation, then either party may take the matter to court.

20. Notices

All notices and other communications related to this Agreement will be in writing and will be considered given as follows:

- A. When delivered personally to the recipient's address as stated in this Agreement; or
- B. Three days after being deposited in the United States mail, with postage prepaid to the recipient's address as stated in this Agreement.

21. Independence of the Parties

This Agreement does not create a partnership. West Allis does not have authority to make promises binding upon the District or otherwise have authority to contract on the District's behalf.

22. Assignment

West Allis may not assign any rights or obligations under this Agreement without the District's prior written approval.

23. Public Records

West Allis will produce any records in the possession of West Allis as related to this Agreement that are subject to disclosure by the District pursuant to the State of Wisconsin's Open Records Laws, Wis. Stats. §§ 19.31 to 19.39. West Allis will indemnify the District against all claims, demands, or causes of action resulting from the failure to comply with this requirement.

Green Infrastructure Funding Agreement G98005P159

Green Solutions – West Allis-Bioswale Bump Outs

Project Description

The Project site is located in the intersection of South 62nd Street and West Lapham Street. The site has approximately 7,000 square feet of impervious asphalt and concrete surface. The City of West Allis plans to replace the existing asphalt in the intersection with concrete pavement and bioswales behind the new curb and gutter. The impervious areas will drain to the newly constructed bioswales in the bump-outs, which will capture the run-off. The bioswale areas will be designed with capacity to retain up to the first half-inch rainfall on the site.

Schedule

West Allis will complete the project by May, 2025.

Budget

Green Solutions	QUANTITY	UNITS	UNIT PRICE	TOTAL
Native Planting (Plugs)	3,280	Sq. Ft.	\$8.00	\$26,240
Splash Pads	16	Each	\$540.00	\$8,640
TOTAL REIMBURSEMENT REQUEST =				\$34,880

Outreach and Education

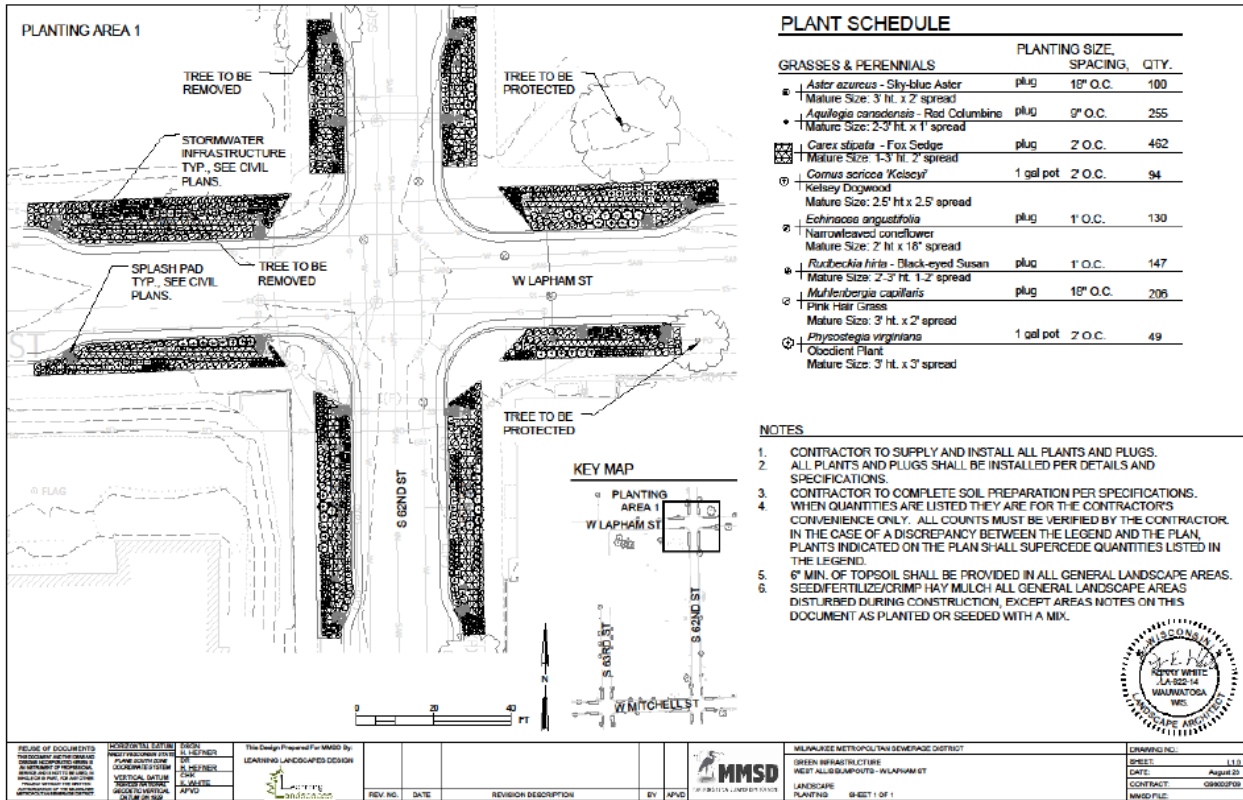

West Allis will post educational signage and describe the Project and its benefits in a community newsletter or web page.

Educational materials will acknowledge District funding for the Project.

Signage will:

1. Be either designed and provided by the District or provided by West Allis and approved by the District;
2. Be at a location approved by the District; and
3. Identify the District as funding this Project by name, logo, or both.
