**CITY OF WEST ALLIS
CITY CLERK**

Recipient: City of West Allis Engineering Department

Letter: Greetings,

Don't tear up our street and charge us to do it! 73rd street is a busy place with the church and businesses. Also there are many rental properties on these streets and they are hard enough to keep occupied without having to fight with a torn up street and reduced parking.

Everyone on these blocks has paid their taxes for the year and so we should not be penalized for being tax payers by having to carry the financial weight of these proposed changes! We don't want it!

Comments

Name	Location	Date	Comment
Lisa Julga	Milwaukee, WI	2017-02-10	I do not want to lose six feet of parking when there is not enough parking to begin with. I have been here 16 years and have never seen anybody pulled over for speeding.
Russ Owens	Waterford, WI	2017-02-10	I need a place to park, when visiting!
Wendy McCreary	Franklin, WI	2017-02-10	My sister lives on this street. It is already a challenge to find parking during prime time.
Conn McCreary	Franklin, WI	2017-02-10	I am familiar with this road and parking is already challenging. Also, speed bumps would be effective and not diminish parking.
Vladimir Arroza	Milwaukee, WI	2017-02-12	I'm signing because my whole family regularly attends and are members of Southside Baptist Church which is along 73rd St and believes this is an unnecessarily drastic measure that the harm it will cause will overwhelmingly outweigh the benefit, if ever there will be any, it purports to achieve.
Amy Halloran	Milwaukee, WI	2017-02-13	I attend church on this street which will be affected by the drastic inconvenience. Narrowing the road will not stop speeders. They drive how they drive. This action would only increase the possibility of someone being hurt trying to cross the street .
Amy Blanton	Milwaukee, WI	2017-02-13	I'm signing because narrowing this street would affect parking for the church my family attends, Southside Baptist Church, as well as removing a valuable loading zone used by the church bus and other large vehicles used for yearly trips taken by groups from the church. The project would also be a drastic solution to a problem that should have been first addressed by less costly, more simple means before suggesting a plan that will cause more harm than good for the neighborhood.
Grace Arroza	Milwaukee, WI	2017-02-15	Our family attend the church along this street at least 3 times per week. Parking as it is now is always a challenge. This proposed narrowing of the street will just cause further parking nightmare - and I'm talking about when there is even no snow.
Kira Miller Elton	Milwaukee, WI	2017-02-19	I do not support the proposed road narrowing project.
Chris Stockdale	Norman, OK	2017-02-19	This plan to modify our street is completely unnecessary and will actually cause residents more inconvenience than any perceived problems that it supposedly addresses.
Matt Levenhagen	Francis Creek, WI	2017-02-19	Sheesh, my wife already complains about not being able to park in front of our house.. ever since the barbershop opened on the corner a few years back it's been way worse.. I can't even imagine what it'd be like after these changes! I've been here 17 years and I don't see speed being a major problem either. To me.. this is all a non-issue or, at the very, least overkill. Please go back to the drawing board.. offer some other options?
Carole Martin	Milwaukee, WI	2017-02-21	I am the property owner at 1568 So. 73rd St and I do not agree with project.
