# ATTACHMENT A AMENDED SCOPE OF SERVICES

City of West Allis NR 216 Storm Water Compliance  
City of West Allis  
April 10, 2019

## Project Background

The City of West Allis joined the Menomonee River Watershed Permit Group on November 30, 2012. Under that permit, the city is required to undertake certain activities related to city-wide stormwater pollution reduction practices.

This Contract Amendment modifies the Scope of Services from the original contract and previous Contract Amendments as follows:

**The Total Contract Value (Original Contract through Contract Amendment 7) was \$143,488.00.**

**Contract Amendment 8** – Amendment 8 includes:

- Adding Tasks 9.4:

### 9.4 Parking Lot Construction Inspection Services

#### Scope of Services

AECOM will provide construction inspection services for both the Library and Downtown parking lots for the duration of construction.

#### Assumptions/Conditions

AECOM will coordinate with the contractor to be on site during critical construction activities such as: laying the brick pavers, pouring concrete, asphaltic paving, placing the stone backfill, and laying the storm sewer. This amendment assumes one AECOM employee will be on-site for up to a total of 336 hours. Any additional observation hours will need to be included in a contract amendment.

Costs also includes time for (2) AECOM employees to attend the pre-construction meeting and for the designer to visit the site up to (4) times at 4 hours per visit.

#### Deliverables:

- Detailed construction observation, including field notes and pictures.
- Contract Value Modifications:

Task	Task Descriptions	Cost
1-9.3	Previous Tasks for services provided to date	\$143,488
9.4	Construction Inspection Services	*\$28,500
	<b>Total</b>	<b>\$171,988</b>

\*Starred costs are estimated and may be adjusted up or down depending on actual costs; however, the Total Cost of \$171,988 shall not be exceeded without prior approval.
