Re: Special Use Concrete Batch Plant Request – **REQUEST TO REMOVE FROM AGENDA**  
I-94 North/South Freeway Projects  
Zoo Interchange Corridor Work

Dear Mr. Mueller:

Michels Paving, a division of Michels Corporation, is requesting to remove its Special Use Application item from the agenda for tomorrow's November 5, 2013 Common Council meeting.

Over the last several days Michels has become aware of new objection letters and information from surrounding neighbors that includes a significant amount of misinformation. We believe that not clarifying these items with the neighbors is detrimental to the process.

In light of these letters and discussions with the City leaders, Michels is requesting to delay the public hearing and be removed from the agenda for tomorrow night. Michels will move quickly to reach out to those that are using misleading information to base opinions and decisions about our application.

Please either call or e-mail to confirm this request.

Best regards,

  
Ryan C. Murphy  
Michels Corporation

RECEIVED

NOV 04 2013

CITY OF WEST ALLIS
