Subject: Decision by City of West Allis Administrative Appeals Review Board (AARB) in regard to the Appeal of the Dangerous Dog Order for Katie and Jared Baroni of 8515 W. Mc Myron St.

Dear Mr. and Ms. Baroni:

This letter is to formally notify you of the determination made by the City of West Allis Administrative Appeals Review Board (AARB) from its meeting on October 30, 2017 regarding your appeal.

At the meeting, the Board decided unanimously to rescind the Dangerous Dog Order for your dog, Rylee, with the direction of muzzling if the dog returns to West Allis.

Thank you for the time you took in making your appeal and attending the meeting. If you have any questions, or need further information or clarification, please feel free to contact me.

Sincerely,

Monica Schultz
City Clerk

CITY OF WEST ALLIS
CITY CLERK

Dear City Clerk of West Allis,

We are writing this letter on behalf of our dog, Rylee, that has recently been deemed a "dangerous dog" by the city of West Allis. The purpose of this letter is to contest this determination, as we believe that it is inaccurate and unfair due to the fact that Rylee has never been involved in a scuffle with any other dog or human in the time that she has been a part of our family. In this isolated incident, she snuck out of the door behind Jared (holding two infants, terrible timing) who had no knowledge of her intentions. This was the only reason she unfortunately had access to a dog that is known in our neighborhood to not be very friendly. The male owner of this dog also openly admitted to Jared that his dog has been involved in numerous altercations with other dogs. His excuse was that his dog is usually pretty defenseless due to being smaller in size compared to most other dogs. If you were to ask any of our neighbors about Rylee, they would tell you that she is a very friendly dog. We strongly believe that the other dog acted in an attempt to protect its owner and that Rylee's actions were nothing but a reaction. In no way, shape, or form is there any way Rylee bit Susan intentionally, if at all. Susan did not realize she was bitten until she got back to her house and calmed down. There is no way to prove Rylee bit her, as both dogs were involved in the exchange. Rylee has NEVER shown any sort of aggression toward any dog, and ESPECIALLY never a human.

We can assure you that there is no possible way that we would allow a dangerous dog to live in our home as we have a son who will be turning one year old next month. Our friends/family would also never bring their children or their dogs to our home if she were dangerous. I wish you could have the pleasure of knowing the sweet and cuddly dog that we interact with on a daily basis.

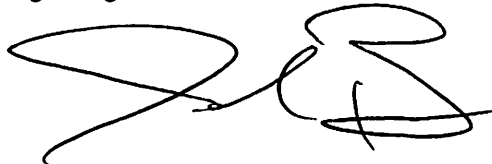

Jared went on vacation back in February with our son and we decided to take Rylee to daycare (also a dog training facility), as she is not used to being alone all day since Jared works third shift. Attached you will find a copy of the assessment completed by one of the employees of this daycare. You will also find a picture of her report card that Katie was given after Rylee's first day of attendance. We hope you find this evidence compelling in contest to your labeling her as "dangerous." You will also find letters from various family members and friends that have interacted with Rylee in the time that she has been a part of our family attached. Finally, we have included a collage of pictures that we feel represent an accurate depiction of Rylee's true demeanor. Our intention is that you find these testimonies and pictures to be in support of our contest.

Our hearts and the hearts of so many people that know Rylee's true nature are broken by the fact that she is being unfairly labeled due to a simple mistake. We are deeply sorry for what occurred and have verbally agreed to reimburse Susan and her husband and any expenses that they have incurred as a result. We sincerely hope that you are able to take our appeal into consideration as we can assure you that "dangerous" is the last word that we or anyone else who knows Rylee would use to describe her. Please feel free to contact us at any time regarding this matter.

Respectfully,

Katie Baroni

There is a need to improve the effectiveness of the current system of child welfare services and to ensure that the child welfare system is able to respond to the needs of children and families in a timely and effective manner. The current system of child welfare services is based on a reactive approach, where services are provided only after a child has been identified as being at risk of harm. This approach is not always effective, as it can be difficult to identify children who are at risk of harm before they have been harmed. A more proactive approach, where services are provided to children and families before they are identified as being at risk of harm, is needed. This approach would involve identifying children and families who are at risk of harm and providing them with services to prevent harm from occurring. This approach would be more effective, as it would allow services to be provided to children and families before they are identified as being at risk of harm. This approach would also be more cost-effective, as it would prevent the need for more expensive services to be provided to children and families who have been harmed.

The following table shows the results of the analysis of variance for the different factors of the experiment. The results are given in the form of the mean squares and the corresponding degrees of freedom. The results are given in the form of the mean squares and the corresponding degrees of freedom. The results are given in the form of the mean squares and the corresponding degrees of freedom.

Subject: Behavior Assessment for Rylee

Hello,
We spoke on the phone yesterday about the behavior assessment your dog received prior to attending daycare. This assessment is a brief and general assessment of the dogs ability to be handled away from its owner and its comfort with meeting other dogs and in groups of dogs. This dog attended daycare through our Groupon promotion for only three days 2/6/17, 2/7/17, 2/8/17. If you are interested we can provide a reassessment, as is required when dogs return to daycare after six months, as dogs are unpredictable and behavior can vary depending on its experiences and history.
Attached is a pdf of the behavior assessment performed 1/31/17

Take care,
Abbie

To the West Allis Clerk:

Our names are Pin and Nathan. We have known the Baroni family for over a year now. They are a great and loving family with a big heart. The family has rescued two dogs. When we first met Rylee, she was always very energetic and playful like any puppy would be. When Pin just moved in with them, she wasn't that close with Rylee yet, but she never attacked or attempted to attack her. Over time she became very cuddly and snuggly with her. As the year went by, Rylee became a very mature and calm dog. She always listened and didn't bark as much anymore as well. When the Baroni family adopted their new puppy, Ramsey; Rylee never once snapped or attacked the puppy. Even when Ramsey tried to attack Rylee in a playful manner, Rylee still did not retaliate. As for the two of us, we strongly believe that the whole situation was an accident. If almost anyone's young dog slipped out of your hands or sight, you would expect it to run to the nearest person or animal. This is a normal way of behavior for almost any dog. This is why we know it was an accident and not intentional.

Sincerely.

A handwritten signature in black ink that reads "Nathan Helwer". The script is cursive and fluid.A handwritten signature in black ink that appears to read "Pin". It is a stylized, cursive signature.

Pin Phansri and Nathan Helwer

RE: Katie and Jared Baroni
8515 W. McMyron Street
West Allis, WI 53214

Dear City of West Allis Clerk,

My name is Dianne Machado and my daughter and son-in-law, Katie and Jared Baroni, are the pet owners of Rylee, a pit bull.

Rylee is a very well behaved and an obedient dog who loves being around people. She has always been very loving and gentle with me and with other people that I have seen her around, especially with my one year old grandson, T.J., Katie and Jared's son.

Katie and Jared also owned a dog named Chauncey, who sadly passed away in October of 2016. Rylee was not aggressive with Chauncey, but was rather submissive with him. Chauncey and Rylee got along great and played very well together.

Should you have questions, please do not hesitate to contact me at (414)840-3032.

Thank you.

Sincerely,

Dianne Machado

Age

1 1/2

Behavior / Reactivity	Green	Yellow	Red
<u>Introduction into play area</u> Approach play area- wait- observe. Open door to play area. Observe dog's behavior, crouch down, and talk to the dog in a calm voice.	☒ Approaches in a friendly manner. ☐ Soft/Friendly ☐ Relaxed, playful.	☐ Excitable response to presence. ☐ Fearful regression with no aggression, cautious/tense/still ☐ Defensive reactions: lunging and regressing.	☐ Lunges to attack: baring teeth, growling ☐ Hackles up, stiff posture, eyes glaring
<u>Possession</u> Use a toy or ball with a rope attached to the end. Once dog is engaged, attempt to remove toy by use of the rope. Offer the dog a treat in exchange for the toy.	☒ Gives up easily, overall playful attitude ☐ Slight resistance to toy removal, but gives in with slight correction/ show no interest in toy ☐ Dog takes toy and hides/plays keep-away.	☐ Possessive over toy/ strong resistance/ no aggression ☐ Threatens to retain—no follow through ☐ Playful growling/engaging	☐ Growls, freeze, snaps when approaching. ☐ Becomes aggressive with follow through—injurious.
<u>Touch / Handling</u> Gently touch head & body. Touch backside and underneath dog – front and back. Apply slight pressure to shoulders, back and hips. Stroke tail & hold for a brief moment. Rub ears & cover one eye. Approach dog from the rear.	☐ Softens with petting, engages tester. Licks, nuzzles, seeks attention, and rolls onto back ☐ Moves away in neutral manner ☒ Accepts but not seek additional	☐ Over stimulated, gets mouthy—follows hand ☐ Skittish, avoidant/ hind quarter/ tail sensitivity ☐ Actively avoidant/ extremely stiff or overly jumpy when touched	☐ Aggresses with follow through—injurious
<u>Food</u> Offer dog a treat allow dog to take it. Offer another treat, as he begins to bite, gentle remove/pull back treat. Drop a treat on ground, when dog sees it cover it with your foot. When dog is eating treat begin	☐ Indifferent or friendly ☒ Confused (looks up at you) ☐ Dog is assertive (digs at treat), gets pushy for treat/ follows with focus	☐ Growls ☐ Hoards/stills ☐ Threatens to retain—no follow through	☐ Aggresses with follow through—injurious

some mild general handling.			
<u>Correction</u> Walk dog near other people and distractions. Let the dog sniff or become interested in something for a few moments & then give a slight tug on the leash & a verbal redirection.	☒ Easily redirects top handler/ compliant ☐ Slow to correct, but follows. Needs second or multiple correction(s). ☐ Ignore handler, correction, and continues	☐ Drops in fear, defensive ☐ Becomes unresponsive ☐ Fights against correction and becomes stubborn to comply	☐ Redirects aggressively toward handler and attempts to or bite.
<u>Dominance</u> Push down on a dog's shoulders using hands & or forearm. Maintain pressure for a moment.	☐ Melts under slight pressure/ submits ☒ Remains neutral ☐ Unresponsive	☐ Stiffens up in reaction ☐ Turns in strong way toward handler ☐ Feels uncomfortable with situation	☐ Growls/ snaps at handler in a dominant manner. Aggresses with follow through—injurious.
<u>Dog to Dog Intro</u> Start test through fence or at a distance. Walk dog being tested by a neutral dog a few times (giving praise/ reward good behavior) then allow him to go & greet the other dog. Keep leash loose. Allow sniffing for 3-4 seconds, then separate & reintroduce.	☒ Interested/ social toward other dog/ soft body ☐ Approaches neutral or playfully (play bow) ☐ Uninterested in an aloof way, remains indifferent or doesn't engage	☐ Rude interaction, posturing, vocal ☐ Does not read cut off signals/ growling, slight lunging, and hackles up ☐ Aggresses with any interaction but controllable with corrections	☐ Offensive or injurious aggression to handler or other dog
<u>Dog to Dog Food Issues</u> Introduce another dog into the immediate (but not reachable) vicinity of test dog: Offer other dog a treat while ignoring test dog. Bring dogs closer together & drop treats for one dog & some for the other dog.	☒ Ignores treats while other dogs eat ☐ Does not interfere when other does is eating ☐ Take treats at same time from ground, not forceful	☐ Threatens to retain and pushes other for treats ☐ Aggresses to retain/obtain, growls, postures ☐ Leaves treat to aggress, or guards in a dominant aggressive manner	☐ Aggresses toward handler. Pursues aggression — injurious

Overall behavior

General overall observations: This is a general picture of your experience with the dog during your entire interaction with the dog.

- ☐ Relaxed, friendly, easy to handle, playful.
- ☒ No signs of stress in play area or kennels.
- ☒ Not seeking attention/ neutral / cautious, slow to engage, calm.
- ☐ Signs of stress in play area or kennels/ spinning/ pacing.
- ☐ Jumps on handler/ mouthy.
- ☐ Checked out/ shaking/ hiding/ avoids interaction/ fearful.
- ☐ Aggressively interacts, aggresses toward handler, pursues handler aggressively.

Re: October 30, 2017 Administrative Appeals Review Board Meeting
Dangerous Dog Order - Katie and Jared Baroni
Your Matter No.: 17-00140
Our Client: Ms. Susan Kushner
Our File No.: 1038.17059

Dear Mr. Cerwin:

Our law firm has been retained by Ms. Susan Kushner regarding a dog bite incident that occurred on July 17, 2017. On that date, Ms. Kushner and her dog were attacked by a pit bull terrier owned by Katie and Jared Baroni. It is my understanding that on October 30, 2017, the West Allis Administrative Appeal Review Board will be considering a "Dangerous Dog Order" regarding the pit bull terrier owned by Mr. and Mrs. Baroni.

Ms. Kushner takes no position regarding the administrative proceedings being conducted by the City. However, Ms. Kushner objects and disagrees to the statements made by Mr. and Ms. Baroni in their submission to the City (the letter is undated but was received by the City on July 25, 2017).

In their letter the Baronis suggest that the Kushner dog is known in the neighborhood "to not be very friendly." This is nonsense. The dog bite incident in question had nothing to do with the Kushner dog other than the Kushner dog also suffered from the vicious attack by the Baroni pit bull terrier. Further, the Baronis suggested that "The male owner of this dog (the Kushner dog) also openly admitted to Jared (Mr. Baroni) that his dog has been involved in numerous altercations with other dogs." This statement is simply false. *First*, the male owner (Mr. Kushner) made no such comments. *Second*, the Kushner dog has had no altercations with other dogs. It was also suggested that "Rylee has NEVER shown any sort of aggression toward any dog, and ESPECIALLY never a human." This is also false. There was at least one previous occasion that the Baroni dog (Rylee) charged after Ms. Kushner and her dog, causing Ms. Kushner to quickly pick up her dog and trip off the curb, without any injury. Fortunately at that

Attorney Nicolas Cerwin
October 26, 2017
Page 2

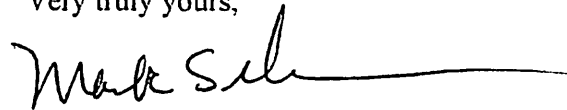

time, Ms. Baroni was able to stop her dog from reaching them. Mr. Baroni acknowledged that prior occasion when talking to Ms. Kushner after this altercation.

Any other statements made by the Baronis regarding the Kushners or their dog are similarly without merit.

Thank you for your consideration of the information set forth above. If you have any questions, please do not hesitate to contact the undersigned. It is my understanding Mrs. Kushner will be present at the Board Meeting pursuant to a subpoena issued by your office.

Thank you.

Very truly yours,

A handwritten signature in dark ink, appearing to read "Mark S. Nelson", followed by a long horizontal flourish line.

Per the Revised Municipal Code of the City of West Allis 7.12(5) the animal identified above and owned/harbored by you at the indicated address is hereby ordered confined, under the conditions defined below, for purposes of quarantine for possible rabies exposure.

- ☐ This animal has bitten or otherwise potentially exposed a person or other animal to rabies virus and is quarantined for a minimum of **10 days** from the date of the incident. Animal owner is responsible for all costs associated with quarantine/impoundment of the animal.
- ☒ Proof of valid rabies vaccination provided. In home quarantine ordered. See Quarantine conditions below.
- ☒ Proof of valid rabies vaccination is **NOT** provided. Animal is ordered to be impounded at:
 - ☐ MADACC
 - ☐ Local Veterinarian Clinic: West Allis Veterinary Clinic
- ☐ This animal has bitten or otherwise potentially exposed a person or other animal to rabies virus **AND** is exhibiting symptoms consistent with rabies. This animal is ordered to be euthanized for rabies testing. Animal owner is responsible for all costs associated with euthanization and testing.

Quarantine conditions:

- ☒ The animal must be seen by a veterinarian within 24 hours for a health clearance. A copy of the veterinarian's report must be submitted to the West Allis Health Department.
- ☒ The animal must be confined at all times in an enclosed space that prevents contact with people, other pets, and wild animals. Animal may only be outside only for purposes of toileting and must be kept on a leash.
- ☒ At no time may the animal be removed from the premises without prior written permission of the West Allis Health Department. In an emergency, the animal may be taken to a vet. Immediately notify the Health Department.
- ☒ If at any time during the quarantine period the animal becomes ill, shows signs of abnormal behavior, or dies, the West Allis Health Department must be notified immediately. The Health Commissioner may authorize, at any time that the animal be euthanized for purposes of laboratory testing for rabies.
- ☒ Animals without a valid rabies vaccination must be vaccinated after the quarantine period, prior to being released to the owner. Also, if the animal does not have a valid Milwaukee County Animal License the owner must obtain the license and submit proof of license to the West Allis Health Department.
- ☒ The animal will be released from quarantine only upon completion of the prescribed requirements and by written authorization of the West Allis Health Department.

I understand and agree to abide by the conditions under which the above named animal, for which I am the responsible owner or custodian, is to be quarantined. I understand that violation of the conditions of this quarantine order, whether by volition or negligence, is punishable under the Revised Municipal Code for the City West Allis.

NARRATIVE

Hartmann Reports...

INITIAL CALL

On 07/17/17 at 1600hrs, Susan L Kushner came into the station to file a dog biting report that occurred earlier today at 1100hrs in front of 8515 W McMyron St. in the City of West Allis.

CONTACT WITH SUSAN L KUSHNER (VICTIM)

I spoke with Susan L Kushner regarding this incident. Susan was identified via WI DL and resides at 1000 S 85 St. in the City of West Allis.

Susan advised earlier today at approximately 1100hrs, she was walking her dog (Schnauzer) by the address of 8515 W McMyron St. when her and her dog were attacked by a pit bull from that residence.

Susan noted that the pit-bull was able to push by the owner of the residence at the front door who appeared to be holding two small children. The pit bull was not on a leash at the time of this incident.

Susan stated the pit-bull bit her dog and violently shook it around while she tried to separate the animals. Susan stated she was so frightened at the time that she doesn't remember separating the animals but immediately left the area to attend to her injured dog.

When Susan got to her residence of 1000 S 85 St. she realized she had blood on her right calf. Upon further inspection, Susan realized she had a puncture wound to her right calf that she knows was caused by the pit bull.

Even though Susan subsequently realized she was bitten, she was so concerned for the well being of her dog that she immediately took the animal for medical attention. Susan took the animal to the St. Paul Veterinary Clinic on 431 N 27 St. in the City of Milwaukee. *Susan's dog had two puncture wounds above it's left eye, two puncture wounds to it's left leg, and a sprained right hind leg.*

Susan also sought medical attention for the *puncture wound to her calf* at the Aurora Urgent Care located at 92/Loomis.

Susan advised she did not need any stitches for the wound. The wound was bandaged while I spoke with her, however, she was able to show me a photograph of the wound prior to the bandaging. Susan was advised to forward any photographs of her injuries and/or her dogs injuries so they can subsequently be attached to this report. Susan subsequently forwarded one photo of her injury and five photographs

of her dog's injuries (see attachments).

LACK OF CONSENT

Susan stated she did not give any one permission to have their dog attack/bite her and/or her dog. I gave Susan a business card and advised her to contact me regarding any additional information regarding this incident.

OFFICER NOTES

Susan did not bring her animal into the station with her for filing this report. Officer notes that Susan's husband was with her and advised that he made contact with the owner of the pit-bull at 8515 W McMyron St. Susan's husband noted that the owner was very cooperative, advised the animal was up to date on all its vaccines and was recently checked up on at the West Allis Veterinary Clinic.

A Phoenix check of the address of 8515 W McMyron Sgt. showed no other animal complaints at this address.

CONTACT WITH JARED BARONI (DOG OWNER)

Checking the address of 8515 W McMyron St. I located a *Jared M Baroni* at the address in Phoenix. I subsequently made phone contact with Jared who advised he does reside at that address and is the owner of the female pit-bull "Rylee."

Jared further stated he was watching his child and baby sitting another child at his residence and while attempting to walk out of the residence, the pit-bull pushed pass him and "went after the other dog."

Jared advised he had to attend to putting down the two children he was holding before he could address the pit-bull. Jared approximated the two dogs being "tangled for 5-8 seconds." Jared did not observe the dog bite Susan.

Jared advised the dog had it's last veterinary check up approximately one month ago and advised the dog is up to date on all it's vaccinations. Jared advised the dog was last checked at the West Allis Veterinary Clinic.

Jared agreed to come into the station to sign Rabies Quarantine Form.

CONTACT WITH WEST ALLIS VETRINARY CLINIC

On 07/17/17 at 1645hrs I made contact with the West Allis Vetrinary Clinic located at 11504 W Greenfield Ave. I was advised that the pit-bull "Rylee" does go to the clinic. I was advised over the phone that the dog was up to date on it's rabies shots with its last shot being on 01/27/17 and not being due until the year of 2020.

The clinic advised they would fax over a copy of the rabies information to

414-302-8196 Attn: Sgt. Hartmann. A faxed copy of the West Allis Veterinay Clinic Animal Record was received that displayed the animal was lasted checked on 06/01/17 and had a rabies shot of 01/27/17. The form will be forwarded with this report.

WEST ALLIS HEALTH DEPARTMENT RABIES QUARANTINE ORDER/ORDER DANGEROUS DOG

Jared Baroni subsequently responded to the West Allis Police Department regarding this incident to sign the Rabies Quarantine Form and to receive an Order Dangerous Dog Form. The forms were signed at the police department at 1710hrs and Baroni was provided the yellow copy of each form. I gave Jared a business card for this incident and advised him to contact me regarding any questions regarding this incident.

The forms will be forwarded to Sgt. Borree and subsequently the West Allis Health Department.

CASE DISPOSITION

On 07/17/17 at 1600hrs, Susan L Kushner came into the station to file a dog biting report that occurred earlier today at 1100hrs in front of 8515 W McMyron St. in the City of West Allis. Susan advised a pit-bull at this address was able to get away from it's owner and attack her and her schnauzer dog. Susan suffered a puncture to her right calf, and her dog received two puncture wounds above it's left eye, two puncture wounds to it's right leg, and a sprained right rear knee. Susan and her dog received medical treatment. Subsequent contact was made with the owner of the pit-bull Jared Baroni who was able to provide rabies vaccination information. A Rabies Quarantine Order and Dangerous Dog Order Forms were completed and the incident will be forwarded to Sgt. Borree and the West Allis Health Department.

Re: October 30, 2017 Administrative Appeals Review Board Meeting
Dangerous Dog Order - Katie and Jared Baroni
Your Matter No.: 17-00140
Our Client: Ms. Susan Kushner
Our File No.: 1038.17059

Dear Mr. Cerwin:

Our law firm has been retained by Ms. Susan Kushner regarding a dog bite incident that occurred on July 17, 2017. On that date, Ms. Kushner and her dog were attacked by a pit bull terrier owned by Katie and Jared Baroni. It is my understanding that on October 30, 2017, the West Allis Administrative Appeal Review Board will be considering a "Dangerous Dog Order" regarding the pit bull terrier owned by Mr. and Mrs. Baroni.

Ms. Kushner takes no position regarding the administrative proceedings being conducted by the City. However, Ms. Kushner objects and disagrees to the statements made by Mr. and Ms. Baroni in their submission to the City (the letter is undated but was received by the City on July 25, 2017).

In their letter the Baronis suggest that the Kushner dog is known in the neighborhood "to not be very friendly." This is nonsense. The dog bite incident in question had nothing to do with the Kushner dog other than the Kushner dog also suffered from the vicious attack by the Baroni pit bull terrier. Further, the Baronis suggested that "The male owner of this dog (the Kushner dog) also openly admitted to Jared (Mr. Baroni) that his dog has been involved in numerous altercations with other dogs." This statement is simply false. *First*, the male owner (Mr. Kushner) made no such comments. *Second*, the Kushner dog has had no altercations with other dogs. It was also suggested that "Rylee has NEVER shown any sort of aggression toward any dog, and ESPECIALLY never a human." This is also false. There was at least one previous occasion that the Baroni dog (Rylee) charged after Ms. Kushner and her dog, causing Ms. Kushner to quickly pick up her dog and trip off the curb, without any injury. Fortunately at that

Attorney Nicolas Cerwin
October 26, 2017
Page 2

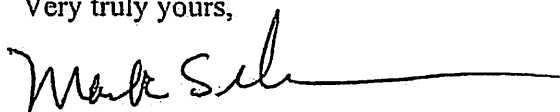

time, Ms. Baroni was able to stop her dog from reaching them. Mr. Baroni acknowledged that prior occasion when talking to Ms. Kushner after this altercation.

Any other statements made by the Baronis regarding the Kushners or their dog are similarly without merit.

Thank you for your consideration of the information set forth above. If you have any questions, please do not hesitate to contact the undersigned. It is my understanding Mrs. Kushner will be present at the Board Meeting pursuant to a subpoena issued by your office.

Thank you.

Very truly yours,

A handwritten signature in dark ink, appearing to read "Mark S. Nelson", followed by a long horizontal line extending to the right.
