within the designated timeframe. Any time limit prescribed herein may be extended by mutual written consent of the parties. The Commission has the sole authority to determine whether a matter should be dismissed on procedural grounds, including failure to comply with a time limit prescribed herein.]

- (1) Step 1. If an employee has a grievance, he/she shall first present and discuss the grievance orally with his/her immediate supervisor within two (2) workdays of knowledge of the issue/circumstances causing the grievance. The supervisor will reach a decision and communicate it orally to the employee within two (2) workdays.
- (2) Step 2. If the grievance is not settled at Step 1, the employee shall reduce the grievance to writing and present it to the department head/appointing authority within five (5) workdays after receiving communication of the supervisor's decision. The written grievance shall contain a clear and concise statement of the relevant facts, the date(s) the event occurred, the identities of the persons involved, documentation related to the grievance in possession of the employee, the actions taken to informally resolve the grievance, the reasons why the disciplinary action should be overturned, if applicable, and the remedy requested. A grievance alleging a workplace safety issue shall also identify the regulations or laws allegedly violated, if applicable. Within five (5) workdays, the department head shall furnish the employee with a written response to the grievance.
- (3) Step 3. If the grievance is not settled at Step 2, the employee may submit a written appeal to the Human Resources Director within five (5) workdays. The Human Resources Director shall schedule the matter before an impartial hearing officer for a hearing as soon as practicable.

v. Civil Service Commission Hearing.

- (2) Subject to the Commission's discretion, witnesses may appear at the hearing and present information under oath or affirmation. Written documents may be submitted. The rules of evidence may be used as a guideline but shall not be binding upon the Commission. The appealing party carries the burden of production of evidence and the burden of proof. In disciplinary matters, the sole issue before the Commission shall be: Based on the preponderance of the evidence presented, has the employee proven the disciplinary action was arbitrary and capricious? An action will be deemed arbitrary and capricious if it is unreasonable or without a rational basis (i.e., if any reasonable view of the evidence sustains the action, it may not be disturbed). In making such determination, the Commission shall accord the decision of the department head/appointing authority a presumption of correctness and validity. In matters involving allegations of workplace safety violations, the sole issue before the Commission shall be: Based on the preponderance of the

evidence presented, has the employee proven there was a violation of state and/or federal regulations or laws on health and safety in the workplace?

- (3) If the Commission determines the discipline or termination was arbitrary and capricious or that there was a workplace safety violation, it shall, in its sole discretion, determine what action shall be taken under the circumstances and as its rules may provide. The decision of the Commission shall be a "final determination" as defined in Sec. 68.12, Wis. Stats. The decision shall be in writing, mailed to the department head/appointing authority and the affected employee, and shall contain notice that any appeal to the Circuit Court of Milwaukee County must be commenced within thirty (30) days of receipt thereof.

Entrances and exits shall be clearly visible and marked where, in the judgment of the Building Inspector, safety requires it. The Building Inspector may impose such additional construction and maintenance requirements as are necessary to eliminate dust, mud and dirt and to safeguard the public safety. Lots and adjoining sidewalks and driveways shall be kept reasonably clean. No vehicles shall be permitted to project into the public sidewalk, alley or street, not shall any vehicles be allowed to encroach upon abutting premises owned by others. - b. Parking at any other time on the Municipal Market Site shall be prohibited, except at such times and under such terms and regulations as the Market Commission may establish.

4. Library Parking Lots.

- a. The following regulations are established for parking on lots operated in connection with municipal branch libraries:
 - i. Parking of vehicles shall be restricted to library patrons and employees.
 - ii. Vehicles may be parked only between the hours of 8:00 a.m. and 10:00 p.m. Parking during any other hours is prohibited.

5. Extensions.

- a. Application. The owner or owners of lots or lands ordered improved by the ~~Code Enforcement~~ Director ~~of the Department of Building Inspections and Zoning~~ to conform with the surfacing and/or drainage requirements of this section may apply to the Safety & Development Committee for an extension of time in which to comply with any such order. All such orders shall contain a statement regarding an owner's rights under the provisions of this subsection. Applications for an extension shall be filed with City Clerk within thirty (30) days of the date of the service of the order for improvement.

The proceedings at such hearing, including the findings and decision of the Committee, shall be summarized, reduced to writing and entered as a matter of public record in the office of the City Clerk.
- c. Grant of Extension. Within a reasonable time after hearing, the Safety & Development Committee shall grant an extension for a period not to exceed three (3) years from the date of the order for improvement, if it finds that any such extension will not have a substantial adverse effect upon the health, safety or property interests of individual persons or the public generally. In making its findings, the Safety & Development Committee shall consider, among other things, hazards or injury to persons or property which may result in the absence of proper drainage and/or proper surfacing. In granting any such extension, the Committee may stipulate such conditions as may be necessary for the protection of any such health, safety or property interests. Only one extension shall be granted for any off-street parking lot. A copy of the decision of the Committee shall be mailed to or served on the applicant and other persons appearing of record at the hearing.

SECTION 16: AMENDMENT “11.19 Post-Construction Stormwater Management” of the City Of West Allis Municipal Code is hereby *amended* as follows:

A M E N D M E N T

11.19 Post-Construction Stormwater Management

1. Authority. This ordinance is adopted by the Common Council under the authority granted by § 62.234, Wis. Stats. This ordinance supersedes all provisions of an ordinance previously enacted under § 62.23, Wis. Stats., that relate to stormwater management regulations.
2. Findings of Fact. The Common Council finds that uncontrolled, post-construction runoff has a significant impact upon water resources and the health, safety and general welfare of the community and diminishes the public enjoyment and use of natural resources. Specifically, uncontrolled post-construction runoff can:
 - a. Degrade physical stream habitat by increasing stream bank erosion, increasing streambed scour, diminishing groundwater recharge, diminishing stream base flows and increasing stream temperature.
 - b. Diminish the capacity of lakes and streams to support fish, aquatic life, recreational and water supply uses by increasing pollutant loading of sediment, suspended solids, nutrients, heavy metals, bacteria, pathogens and other urban pollutants.
 - c. Alter wetland communities by changing wetland hydrology and/or by increasing pollutant loads.
 - d. Reduce the quality of groundwater by increasing pollutant loading.
 - e. Threaten public health, safety, property and general welfare by overtaxing storm sewers, drainageways, and other minor drainage facilities.
 - f. Threaten public health, safety, property and general welfare by increasing major flood peaks and volumes.
 - g. Undermine floodplain management efforts by increasing the incidence and levels of flooding; and

- h. Aggravate excessive infiltration and inflow of water into sanitary sewer connections during peak storm events causing the conveyance system to surcharge, overflow or backup into basements.
- 3. Purpose. This ordinance integrates federal and state construction post-construction site stormwater water quality standards with duties to reasonably manage the quantity of water run-off for regional flood abatement. This chapter implements the Milwaukee Metropolitan Sewerage District rules on release rates for new development and or redevelopment, to reduce the probability of increased regional floods.
- 4. Stormwater Quality and Quantity Management Applicability.
 - a. The water quality management duties apply to property development/redevelopment as required by Wisconsin Department of Natural Resources NR 151, and the water quantity management duties apply to development/redevelopment sites as required by Milwaukee Metropolitan Sewerage District Chapter **13** rules.
 - b. Notwithstanding the applicability requirements in Paragraph (a), this ordinance applies to post-construction sites of any size that, in the opinion of the City Engineer, are likely to result in runoff that exceeds the capacity of the existing drainage facilities or the level of flooding protection in a watercourse, causes undue channel erosion, increases water pollution by scouring or the transportation of particulate matter or that endangers property or public safety.
 - c. Comity. State agencies should design and incorporate best management practices for surface water quality and stormwater quantity management for new impervious surfaces. The runoff management techniques should be the same as flood abatement plans and techniques utilized by local governments in the watershed. The lead agency preparing an environmental assessment for a federal or state project shall identify the mitigating runoff management techniques to prevent increases in peak flood flows from new impervious areas.
- 5. Definitions.
 - a. "Best management practice" or "BMP" means structural or nonstructural measures, practices, techniques or devices employed to:

 - g. "Maintenance agreement" means a legal document that provides for long-term maintenance of stormwater management practices.

6. Technical Standards. The following methods shall be used in designing the water quality, peak flow shaving and infiltration components of stormwater practices needed to meet the requirements of this ordinance:
- a. Technical standards identified, developed or disseminated by the Wisconsin Department of Natural Resources under Chapter NR 151, Wis. Adm. Code.
 - b. Where technical standards have not been identified or developed by the Wisconsin Department of Natural Resources, other technical standards may be used, provided that the [Code Enforcement](#) Director ~~of Building Inspection and Neighborhood Services~~ or the City Engineer has approved the methods.
 - c. The rainfall data from the National Oceanic and Atmospheric Administration (NOAA) Atlas 14 Precipitation - Frequency Atlas of the United States, Volume 8 (Midwestern States), published in 2013, or more protective data shall be the basis for the analyses required by this ordinance for water quantity analysis.

 - (2) These BMPs may be implemented on either a watershed basis or an individual site basis.
 - (3) When implemented on a watershed basis, the BMPs implemented at a particular site shall comply with the findings of the relevant local or regional stormwater management plan,

rather than Subdivisions 4 and 5.

- d. Alternate Requirements. The Code Enforcement Director ~~of Building Inspection and Neighborhood Services~~ or the City Engineer may establish stormwater management requirements more stringent than those set forth in this section if the City Engineer determines that an added level of protection is needed to protect sensitive resources.
8. Permitting Requirements, Procedures and Fees.
- a. Permit Required. No responsible party may undertake a qualifying land-disturbing construction activity without a Stormwater Management Plan approved by the Code Enforcement Director ~~of Building Inspection and Neighborhood Services~~ or the City Engineer prior to commencing the proposed activity. A Stormwater Permit shall be issued by the Code Enforcement Director ~~of Building Inspection and Neighborhood Services~~ or the City Engineer upon the satisfactory installation of the approved stormwater management system.
 - b. Permit Application and Fees.  - v. Failure by the Code Enforcement Director ~~of Building Inspection and Neighborhood Services~~ or the City Engineer to inform the permit applicant of a decision within twenty (20) business days of a complete submittal shall be deemed an approval of the submittal and the applicant may proceed as if a permit had been issued.
 - d. Permit Requirements. All permits issued under this ordinance shall be subject to the following conditions, and holders of permits issued under this ordinance shall be deemed to have accepted these conditions. The Code Enforcement Director ~~of Building Inspection and Neighborhood Services~~ or the City Engineer may suspend or revoke a permit for violation of a permit condition, following written notification of the responsible party. An action to suspend or revoke this permit may be appealed in accordance with Subsection (14).
 - i. The responsible party shall design and install all structural or identify nonstructural stormwater management measures, or both, in accordance with the approved stormwater management plan and this permit.

 - vi. If so directed by the Code Enforcement Director ~~of Building Inspection and Neighborhood Services~~ or the City Engineer, the responsible party shall repair at the responsible party's own expense all damage to adjoining municipal facilities and drainageways caused by runoff, where such damage is caused by activities that are not in compliance with the approved stormwater management plan.
 - vii. The responsible party shall permit property access to the Code Enforcement Director ~~of Building Inspection and Neighborhood Services~~ or the City Engineer or its designee for the purpose of inspecting the property for compliance with the approved stormwater management plan and this permit.
 - viii. Where site development or redevelopment involves changes in direction, increases in the peak rate or the total volume of runoff, the Code Enforcement Director ~~of Building Inspection and Neighborhood Services~~ or the City Engineer may require the responsible party to make appropriate legal arrangements with affected property owners concerning the prevention of endangerment to property or public safety.
- e. Permit Conditions.  - i. No person shall discharge or cause to be discharged into the municipal storm sewer system or watercourses any materials, including but not limited, to pollutants or waters containing any pollutants that cause or contribute to a violation of applicable water quality standards, other than stormwater.
 - ii. Exemptions. The commencement, conduct or continuance of any illegal discharge to the storm drain system is prohibited except as described as follows:
 - (1) The following discharges are exempt from discharge prohibitions established by this ordinance: water line flushing or other potable water sources, landscape irrigation or lawn watering, diverted stream flows, rising groundwater, groundwater infiltration to storm drains, uncontaminated pumped groundwater, foundation or footing drains (not including active groundwater dewatering systems), crawl space pumps, air conditioning condensation, springs, noncommercial washing of vehicles, natural riparian habitat or wetland flows, swimming pools (if dechlorinated: typically less than one PPM chlorine), firefighting activities, and any other water source not containing pollutants.

 - i. Suspension due to Illicit Discharges in Emergency Situations. The ~~Code Enforcement~~ Director ~~of Building Inspection and Neighborhood Services~~ or the City Engineer may, without prior notice, suspend MS4 discharge access to a person when such suspension is necessary to stop an actual or threatened discharge that presents or may present imminent and substantial danger to the environment, or to the health or welfare of persons, or to the MS4 or Waters of the State of Wisconsin. If the violator fails to comply with a suspension order issued in an emergency, the ~~Code Enforcement~~ Director ~~of Building Inspection and Neighborhood Services~~ or the City Engineer may take such steps as deemed necessary to prevent or minimize damage to the MS4 or Waters of the State of Wisconsin, or to minimize danger to persons.

A person who is the operator of a facility with a WPDES permit to discharge stormwater associated with industrial activity commits an offense if the person denies the ~~Code Enforcement~~ Director ~~of Building Inspection and Neighborhood Services~~ or the City Engineer reasonable access to the permitted facility for the purpose of conducting any activity authorized or required by this ordinance.

Every person owning property through which a watercourse passes, or such person's lessee, shall keep and maintain that part of the watercourse within the property free of trash, debris, excessive vegetation, and other obstacles that would pollute, contaminate, or significantly retard the flow of water through the watercourse. In addition, the owner or lessee shall maintain existing privately owned structures within or adjacent to a watercourse, so that such structures will not become a hazard to the use, function, or physical integrity of the watercourse.
- j. Notification of Spills. Notwithstanding other requirements of law, as soon as any person responsible for a facility or operation, or responsible for emergency response for a facility or operation has information of any known or suspected release of materials which are resulting or may result in illegal discharges or pollutants discharging into stormwater, the storm drain system, or water of the State of Wisconsin said person shall take all necessary steps to ensure the discovery, containment, and cleanup of such release. In the event of such a release of hazardous materials, said person shall immediately notify emergency response agencies of the occurrence via emergency dispatch services. Any technique that effectively provides

actual and verifiable notice may be used.

- c. A M E N D M E N T

12.75 Shoreland-Wetland Zoning Ordinance For The City Of West Allis

1. Statutory Authorization, Findings of Fact, Statement of Purpose and Title.
 - a. Statutory Authorization. This ordinance is adopted pursuant to the authorization in secs. 61.35 and 61.351 for villages; or, secs. 62.23 and 62.231 for cities; and, secs. 87.30 and 144.26 of the Wisconsin Statutes.
 - b. Findings of Fact and Purpose. Uncontrolled use of the shoreland-wetlands and pollution of the navigable waters of the municipality would adversely affect the public health, safety, convenience and general welfare and impair the tax base. The Legislature of Wisconsin has delegated responsibility to all municipalities to:
 - i. Promote the public health, safety, convenience and general welfare;
 - ii. Maintain the storm and flood water storage capacity of wetlands;
 - iii. Prevent and control water pollution by preserving wetlands which filter or store sediments, nutrients, heavy metals or organic compounds that would otherwise drain into navigable waters;
 - iv. Protect fish, their spawning grounds, other aquatic life and wildlife by preserving wetlands and other aquatic habitat;
 - v. Prohibit certain uses detrimental to the shoreland-wetland area; and,
 - vi. Preserve shore cover and natural beauty by restricting the removal of natural shoreland cover and controlling shoreland-wetland excavation, filling and other earth moving activities.
2. General Provisions and Zoning Maps.
 - a. Compliance. The use of wetlands and the alteration of wetlands within the shoreland area of the municipality shall be in full compliance with the terms of this ordinance and other applicable local, state or federal regulations. (However, see section (4) of this ordinance for the standards applicable to nonconforming uses.) All permitted development shall require the issuance of a zoning permit, unless otherwise expressly excluded by a provision of this ordinance.

- b. Municipalities and State Agencies Regulated. Unless specifically exempted by law, all cities, villages, towns and counties are required to comply with this ordinance and obtain all necessary permits. State agencies are required to comply if sec. 13.48(13) of the Wisconsin Statutes applies. The construction, reconstruction, maintenance and repair of state highways and bridges by the Wisconsin Department of Transportation are exempt when sec. 30.12(4)(a) of the Wisconsin Statutes applies.
 - c. Abrogation and Greater Restrictions.
 - i. This ordinance supersedes all the provisions of any municipal zoning ordinance enacted under secs. 61.35, 62.23 or 87.30 of the Wisconsin Statutes, which relate to floodplains and shoreland-wetlands, except that where another municipal zoning ordinance is more restrictive than this ordinance, that ordinance shall continue in full force and effect to the extent of the greater restrictions, but not otherwise.
 - ii. This ordinance is not intended to repeal, abrogate or impair any existing deed restrictions, covenants or easements. However, where this ordinance imposes greater restrictions, the provisions of this ordinance shall prevail.
 - d. Interpretation. In their interpretation and application, the provisions of this ordinance shall be held to be minimum requirements and shall be liberally construed in favor of the municipality and shall not be deemed a limitation or repeal of any other powers granted by the Wisconsin Statutes. Where a provision of this ordinance is required by a standard in Chapter NR 117, Wis. Adm. Code, and where the ordinance provision is unclear, the provision shall be interpreted in light of the Chapter NR 117 standards in effect on the date of the adoption of this ordinance or in effect on the date of the most recent text amendment to this ordinance.
 - e. Severability. Should any portion of this ordinance be declared invalid or unconstitutional by a court of competent jurisdiction, the remainder of this ordinance shall not be affected.
3. Shoreland-Wetland Zoning District.
- a. Shoreland-Wetland Zoning Maps. The following maps are hereby adopted and made part of this ordinance and are on file in the office of the City Clerk:

reference and made a part of this ordinance. Floodplain zoning maps adopted in section (3)(a)l. shall be used to determine the extent of floodplain areas.

- ii. Determinations of navigability and ordinary high-water mark location shall initially be made by the Zoning Administrator. When questions arise, the Zoning Administrator shall contact the appropriate District office of the Department for a final determination of navigability or ordinary high-water mark.
 - iii. When an apparent discrepancy exists between the shoreland-wetland district boundary shown on the official zoning maps and actual field conditions at the time the maps were adopted, the Zoning Administrator shall contact the appropriate District office of the Department to determine if the shoreland-wetland district boundary, as mapped, is in error. If Department staff concur with the Zoning Administrator that a particular area was incorrectly mapped as a wetland, the Zoning Administrator shall have the authority to immediately grant or deny a zoning permit, in accordance with the regulations applicable to the correct zoning district. In order to correct wetland mapping errors or acknowledge exempted wetlands designated in sections (3)(c) and (3)(d), the Zoning Administrator shall be responsible for initiating a map amendment within a reasonable period.
 - iv. Filled Wetlands. Wetlands which are filled prior to October 27, 1988, the date on which the municipality received final wetland inventory maps, in a manner which affects their wetland characteristics to the extent that the area can no longer be defined as wetland, are not subject to this ordinance.

No permit will be issued for the erection of a building upon a lot within the corporate limits of the City unless the lot abuts upon a passable, hard paved surfaced roadway which will allow proper and ready access for fire, police and other municipal services and equipment, nor shall a permit be issued unless there are available abutting such lot public water, sanitary and storm sewer facilities for utility connection. The storm sewer connection may be conditionally waived where storm sewer is not readily available as a lateral into the lot or the main does not abut the lot being developed. 18.10 Registration Of Properties Pending Foreclosure

1. Findings. The Common Council finds that a significant relationship exists among properties in the foreclosure process, the prevalence of blight and abandoned buildings, increased calls for police service, higher incidence of fires, both accidental and intentional, and decline and disinvestment in neighborhoods. Property owners involved in foreclosure have less incentive to maintain their properties, and properties in foreclosure have a higher incidence of building code violations than properties not in foreclosure. The foreclosure process may also result in abandonment. Abandoned buildings become havens for vandalism, arson and drug crimes, draining valuable governmental resources and creating a significant reduction in quality of life for the surrounding neighborhood. Registration, inspection and aggressive monitoring of properties in the foreclosure process help to stabilize and improve affected neighborhoods and aid in code enforcement efforts, as well as public safety. A mortgagee that does not register, inspect, secure, and maintain, as required in this section, places an undue and inappropriate burden on the taxpayers of the City and poses an increased risk to public health, safety and welfare.
2. Purpose and Scope. The purpose of this section is to establish a registration program to monitor all real properties pending foreclosure to identify at-risk properties and to regulate the securing and maintenance of abandoned properties in foreclosure. This section is intended to reduce and prevent neighborhood blight; to ameliorate conditions that threaten public health, safety and welfare; to promote neighborhood stability and occupancy by preserving the condition and appearance of properties; and to maintain property values and assessments. It is declared a matter of public policy and an exercise of the City's police power that mortgagees initiating foreclosure proceedings against a property are required to register with the City of West Allis. This registration process will give City departments the means of contacting those responsible for the foreclosure proceedings and mortgages at issue, those responsible for the inspections required in this section, and those responsible for the securing and maintenance of abandoned property as required in this section. The purpose of the registration fee is to partially recover administrative costs associated with this registry. Nothing in this section shall be construed as waiving, relieving, or otherwise excusing an owner of property from complying with applicable building codes and ordinances. The owner shall at all times comply with applicable building codes and ordinances, and the owner shall at all times remain responsible and liable therefor. Nothing in this section is intended to affect the right to foreclose as provided by state law.

6. Lien. All user charges established hereunder shall be a lien upon the property served, pursuant to Wis. Stats. § 66.0821(4)(d), and shall be collected in the manner therein provided.
7. Adjustments.
- a. Intent. In certain situations, the amount of services used by and the costs of providing service to a property may be lessened due to unique characteristics of the property served. This section provides a procedure to seek adjustments of charges in those situations. In developing this process, the City recognizes that debt service costs and extension and replacement costs are incurred primarily to provide the capacity needed in the stormwater management system, and operation and maintenance costs are incurred to ensure the administration of the stormwater system, the day-to-day operation of the stormwater system and the needed capacity in the system.
- b. Requests for Adjustment. Requests for adjustments shall be limited to the nonresidential customer class. All such requests shall be submitted to the Director of Public Works, who is hereby given the authority to review the request and recommend to the Board of Public Works Committee of the West Allis Common Council whether an adjustment is merited based upon the guidelines established herein. The following procedure shall apply to all adjustment requests:
- i. Any nonresidential customer who believes the number of ERUs allocated to the nonresidential property to be incorrect or who believes the property is eligible for a lower adjustment multiplier as provided in Subsection (7)(c) may, subject to the limitations set forth in this section, submit an adjustment request to the Director of Public Works.
- ii. Adjustment requests shall be in writing and set forth, in detail, the grounds upon which relief is sought.
- iii. The nonresidential customer requesting the adjustment may be required, at his or her own expense, to provide supplemental information to the Director of Public Works, including, but not limited to, survey data approved by a registered professional land surveyor (R.P.L.S.) and engineering reports approved by a professional engineer (P.E.). Failure to provide such information may result in the denial of the adjustment request.
- c. Basis for Adjustment.

- i. The allocated ERUs may be adjusted if the ERU square footage calculation as determined in Subsection (4)(c) is incorrect.
- ii. A customer may be eligible for a lowered adjustment multiplier under the following conditions:
 - (1) If all of the stormwater from a nonresidential property discharges directly into a qualifying receiving stream without crossing the property of another, and the discharge does not result in the exceedence of federal, state or local water quality standards, the customer is eligible for an adjustment multiplier less than one but equal to or greater than the percentage equal to the City's Operation and Maintenance cost budgeted for the current year divided by the City's User Fee Revenue budgeted for the current year.
 - (2) If all of the stormwater from a nonresidential property discharges directly into a qualifying receiving stream without crossing the property of another, and the nonresidential customer is a holder of or has filed a proper and complete application for a Municipal Stormwater Discharge Permit as provided in Wis. Stat. § 283.33 and as further defined in Department of Natural Resources ("NR") 216.01 through 216.11 of the Wisconsin Administrative Code, the customer is eligible for a lowered adjustment multiplier which may be as low as zero.
 - (3) If all the stormwater from a nonresidential property discharges directly into a stormwater collection system constructed and maintained by the Milwaukee Metropolitan Sewerage District ("MMSD") without crossing the property of another, the customer is eligible for a lowered adjustment multiplier equal to zero.
 - (4) If all the stormwater from a nonresidential property discharges directly into a storm sewer constructed and maintained by the City on the nonresidential customer's property pursuant to an easement, and if after the stormwater travels through the easement area it is discharged as provided in Subsection (7) (c)(ii)2 or 3, the customer is eligible for a lowered adjustment multiplier which may be as low as zero.
 - (5) If a retention or detention basin is located on nonresidential property, the customer may apply for a lowered adjustment multiplier. In considering such a request, the Director of Public Works shall consider whether and to what extent the City's cost of providing service or making service available to a property has been lessened by the retention or detention basin. If the City's cost of providing service or making service available to a property has not been lessened by the retention or detention basin, the request for the lowered adjustment multiplier shall be denied. If the City's cost of providing service or making service available to a property has been lessened by the retention or detention basin, the adjustment multiplier shall be reduced to reflect the approximate reduction in the City's costs. The City's debt service costs and extension and replacement costs shall not be considered to be reduced unless the existence of a retention or detention basin results in a reduction of the size or scope of the City's stormwater collection system.
 - (6) If a nonresidential municipal property receives stormwater discharge directly from a public storm sewer and/or provides a benefit that exceeds the adverse impact to the public storm sewer system, the customer's adjustment multiplier shall be zero and no charge shall be billed. **[Ord. O-2013-0037, 10-1-**

2013]

- iii. In considering a request for an adjustment, the Public Works Director may, in his or her discretion, separately examine multiple drainage areas on one piece of property and may recommend allowing an adjustment multiplier for a portion of the property if the characteristics of one or more drainage areas meets the criteria set forth in Subsection (7)(c)(ii).
- iv. The Director of Public Works, in his or her discretion, may recommend allowing a lowered adjustment multiplier which may be as low as zero for a nonresidential property for reasons other than as specifically set forth in this Subsection (7)(c), provided that the adjustment is reasonable and not unjustly discriminatory.
- d. Director of Public Works' Recommendation and Review Procedure.
 - i. The Director of Public Works shall issue a written recommendation as to whether the request for adjustment should be granted, denied, or granted in part and denied in part. The written recommendation shall also set forth the reason or reasons for such recommendation. The recommendation shall be sent to the nonresidential customer by certified mail, and shall be provided to the Board of Public Works Committee of the West Allis Common Council.
 - ii. Within thirty (30) days of receipt of the written recommendation from the Director of Public Works, the Committee shall determine whether to review the recommendation. If the Committee determines to review the recommendation, the nonresidential customer shall be notified of such intent to review by certified mail.
 - iii. As an alternative to review under Subsection (7)(d)(ii), a nonresidential customer may, within thirty (30) days of receipt of the written recommendation from the Director of Public Works, submit a written request to the Committee asking the Committee to review the recommendation. If the Committee receives a timely written request for review, the Committee shall review the recommendation.
 - iv. If no timely notice of intent to review is sent to the nonresidential customer pursuant to Subsection (7)(d)(ii) and no timely written request for review is received pursuant to Subsection (7)(d)(iii), the recommendation of the Public Works Director shall be final.
 - v. Committee review of the Public Works Director's recommendation shall be completed within forty-five (45) days of the date the notice of intent to review is sent to the nonresidential customer, or the date the written request for review is received, whichever is earlier. The Committee shall review the recommendation and determine whether the recommendation should be approved, rejected, or modified. The determination of the Committee shall be in writing and set forth, in detail, the reason or reasons for its decision and shall inform the nonresidential customer by certified mail.
 - vi. In reviewing a recommendation, the Committee shall apply the standard and review criteria contained in Subsection (7)(c) and the considerations set forth in Wis. Stat. § 660.0821(4)(c).
- e. Application of Adjustments. Any ERU adjustment or adjustment multiplier granted shall thereafter be used to calculate the customer's user charges. The reduction shall only apply for the period of time subsequent to the filing of the request for adjustment. There shall be no retroactive adjustment for user charges imposed prior to the filing of the request.
- 8. Public Service Commission Complaint. Notwithstanding Subsection (7), any user may file a complaint with the Public Service Commission claiming that the rates, rules and practices herein are unreasonable or unjustly discriminatory pursuant to Wis. Stat. § 66.0821(5).
- 9. Severability. If any provision or part of this section is adjudged unconstitutional or invalid by a court of competent jurisdiction, the remainder of this section shall not be

affected thereby.

SECTION 55: **AMENDMENT** “7.035 Noise Control Regulations” of the City Of West Allis Municipal Code is hereby *amended* as follows:

A M E N D M E N T

7.035 Noise Control Regulations

1. Statement of Purpose. The City of West Allis recognizes that excessive noise and vibration are serious threats to the public health and welfare, public safety, quality of life and property values. Current science and technology permit abatement of noise and vibration sources which were not available in the past. Therefore, it is the policy

of the City to prevent and abate excessive noise and vibration which may jeopardize the public health, safety or welfare or which would cause harm to property values or which would impair the quality of life within the City.

2. Definitions. All terminology used in this section, not defined below or elsewhere within the West Allis Revised Municipal Code, shall be given the definitions provided by applicable publications of the American National Standards Institute (hereinafter "ANSI") or its successor body.

- a. "A-Weighted Sound Level" means the sound pressure level in decibels as measured on a sound level meter using the "A" weighting network. The level so read is designated as db(A) or dB(A).

Examples of sources of impulse noise include explosions, drop forge impacts, and the discharge of firearms.
- k. "Manufacturing District" means any area of the City designated on the official West Allis Zoning Map, pursuant to Chapter 12 of this Code, as M-1.

is unambiguously communicated to the listener, such as, but not limited to, understandable speech, comprehension of whether a voice is raised or normal, repetitive bass sounds, or comprehension of musical rhythms, without the aid of any listening device.

- s. "Power Tool" means any device powered mechanically, by electricity, by gasoline, by diesel fuel, or by any other fuel, which is intended to be used, or is actually used for, but shall not be limited to, the performance of such functions as cutting, nailing, stapling, sawing, vacuuming or drilling.

3. Scope and Enforcement. This section, in addition to other ordinances and statutes, shall apply to the control of noise and vibration originating within the City of West Allis. The West Allis Health Department is the primary agency responsible for the enforcement of this section, and the West Allis Police Department may also enforce the provisions of this section. The City of West Allis's policy is to comply with this section in its own operations and in the operations of its contractors and subcontractors.

Any ruling of the Chair shall be final unless appealed to the Committee and a majority vote of those members present and voting reverses such ruling.
 - v. An audio recording or stenographic record shall be made of all proceedings at the hearing, and the Clerk shall mark and preserve all exhibits and testimony. Any interested party may obtain a copy of the recording or transcript at his or her own expense.
- e. Recommendation to the Common Council.
- i. After the close of the hearing, the Committee shall deliberate and reach a decision. Based on the evidence presented at the hearing, the Committee shall recommend to the Common Council whether a variance permit should be issued and under what conditions the Committee finds necessary to protect the public health, safety and welfare, including a schedule for achieving compliance with noise and vibration limitations. In deciding whether to recommend granting the permit, the Committee shall balance the hardship to the applicant, the community, and other persons; the impact on the health, safety, and welfare of the community; the effect on the property in the area; and any other impact that the granting of the variance may have. The Committee shall prepare findings on factual matters, conclusions of law, and a recommendation on what action, if any, should be taken with regard to the license(s) at issue. The report shall be filed with the City Clerk/~~Treasurer~~ within twenty (20) days, and the Clerk shall mail a copy of the report to the last-known address of the variance applicant, Health Commissioner, and any person(s) who claim to be adversely affected by the allowance of the variance permit. The findings and recommendations shall be distributed to each member of the Common Council.
 - ii. The variance applicant, Health Commissioner, and any person(s) who claim to be adversely affected by the allowance of the variance permit

may file a written statement or response to the findings and recommendation, including objections, exceptions, and arguments of fact and law. A written statement must be filed with the City Clerk/~~Treasurer~~ before the close of business on a day that is at least three working days prior to the date set for determination by the Common Council. Copies of written statements shall be provided to each member of the Common Council at least twenty-four (24) hours before any vote on the matter is scheduled before the Common Council.

f. Common Council Determination.

- i. Not less than five (5) working days prior to the matter being scheduled before the Common Council, the Clerk/~~Treasurer~~ shall notify the variance applicant and any person(s) who claim to be adversely affected by the allowance of the variance permit by United States first-class mail, postage prepaid, sent to the last known address, that the Common Council will convene to determine the matter.
- ii. Unless an Alderperson states that he/she has not read the findings and recommendations, and written statements, if any, the matter shall proceed to debate amongst members of the Common Council. Neither the variance applicant nor any person(s) who claim to be adversely affected by the allowance of the variance permit shall be permitted to make oral arguments.
- iii. The Common Council shall determine by a majority vote of those in attendance and voting whether to adopt the recommendation of the Committee or make such modification as is deemed appropriate. Such vote shall be a roll call vote, and such hearing shall constitute the final determination of the matter. The Clerk/~~Treasurer~~ shall notify the variance applicant and any person(s) who claim to be adversely affected by the allowance of the variance permit by United States first-class mail, postage prepaid, sent to the last known address, of the Common Council's decision.

g. The permit, if granted, shall contain a time limit for such activity. Variances exceeding two (2) years may be granted only in exceptional cases, including those for which, in the opinion of the Committee, control technology is unavailable or available only at a prohibitive cost. Noncompliance with any conditions imposed on the variance shall terminate the variance and subject the person or corporation holding it to those provisions of this section for which the variance permit was granted.

h. Extension and Modification. Application for extension of time limits or modification of other conditions specified in the variance permit shall be treated like applications for an initial variance, except that the Common Council must find that the need for such extension or modification clearly outweighs any adverse impacts of granting the extension or modification.

i. Judicial Review. Any party to a proceeding resulting in a final determination may seek review thereof by certiorari within thirty (30) days of receipt of the final determination.

- i. If review is sought of a final determination, the record of the proceedings shall be transcribed at the expense of the person seeking review. A transcript shall be supplied to anyone requesting the same at the requester's expense.

12. Penalties. Any person violating any provision of this section shall, upon conviction, be subject to a forfeiture of not less than one hundred dollars (\$100) nor more than five hundred dollars (\$500) for each offense, together with the costs of prosecution. In default of payment thereof, the person shall be imprisoned in the Milwaukee County House of Correction until such forfeiture and costs are paid, but not more than the number of days set forth in Section 800.095(1)(b)1 of the Wisconsin Statutes. Each day that any violation continues shall be considered a separate offense.

13. Severability. If any provision, clause, sentence, paragraph, or phrase of this section or

the application thereof to any person or circumstances is held, for any reason, by a court of competent jurisdiction, to be invalid or unconstitutional, such decision shall not affect the validity of other provisions or applications of the provisions of this section which can be given effect without the invalid provision or application, and to this end, the provisions of this section are declared to be severable.
