NOW THEREFORE, the Common Council of the City of West Allis do ordain as follows:

SECTION 1: **AMENDMENT** “6.027 Sex Offender Residing Within Nine Hundred Fifty (950) Feet Of Schools, Child-Care Centers, Parks, And Other Specified Facilities And Uses Prohibited” of the City Of West Allis Municipal Code is hereby *amended* as follows:

A M E N D M E N T

6.027 Sex Offender Residing Within Nine Hundred Fifty (950) Feet Of Schools, Child-Care Centers, Parks, And Other Specified Facilities And Uses Prohibited

1. Findings and Intent:

- a. Whereas, the Common Council has the power, through s. 62.11(5) Wis. Stat., to enact legislation promoting the health, safety, and welfare of the public.
- b. Whereas, the Common Council has reviewed the holdings and findings of the following court cases: Vill. of Menomonee Falls v. Ferguson, 334 Wis. 2d 131 (Wis.Ct.App. 2011); City of S. Milwaukee v. Kester, 347 Wis. 2d 334 (Wis.Ct.App. 2013); Smith v. Doe, 123 S. Ct. 1140 (2003); McKune v. Lile, 122 S. Ct. 2017 (2002); Hoffman v. Vill. of Pleasant Prairie, 249 F. Supp. 3d 951 (E.D. Wis. 2017); Vasquez v. Foxx, No. 16-CV-8854, 2016 U.S. Dist. LEXIS 170354 (N.D. Ill. Dec. 9, 2016); Doe v. Miller, 405 F.3d 700 (8th Cir. 2005).
- c. Whereas, based upon a 2003 study by the United States Department of Justice, Bureau of Justice Statistics, titled Recidivism of Sex Offenders Released from Prison in 1994, sex offenders released from prison were four times more likely to be rearrested for a sex crime as compared to non-sex offenders released from prison. Of those individuals included in the study, forty percent (40%) of new sex crimes committed by those sex offenders released from prison had occurred within the first twelve (12) months of release. Further, child molesters who were released from prison were at least six (6) times more likely to be rearrested for another sex crime against a child as compared to a non-sex offender released from prison.

- d. Whereas, the Common Council has conducted a review of other reports and studies related to creating and implementing specific desistance factors to reduce recidivism of sex offenders. The studies and reports that have been reviewed include the following: Tatar, J. & Jones, M. (August 2016). Recidivism After Release from Prison, State of Wisconsin Department of Corrections; Steiner, B., Makarios, M. D., & Travis, L. F. (2015). Examining the Effects of Residential Situations and Residential Mobility on Offender Recidivism. *Crime and Delinquency*, 61(3), 375-401; Kyle, D., (2016). Examining Sexual Offenses through a Sociological Lens: A Socio-Cultural Exploration of Causal and Desistance Theories. *European Journal of Probation*, 8(3), 170-184; Horney, J., Osgood, W., & Marshall I.H., (1995). Criminal Careers in the Short-Term: Intra-Individual Variability in Crime and Its Relation to Local Life Circumstances. *American Sociological Review*, 60(5), 655-673; Mann, R.E., de Vries Robbe, M., Maruna, S., & Thornton, D. (2015). An Exploration of Protective Factors Supporting Desistance from Sexual Offending. *Sexual Abuse: A journal of Research and Treatment*, 27(1), 16-33.
- e. Whereas, the Common Council acknowledges that literature on sex offender recidivism, sex offender desistance, and sex offender residency restrictions contains studies which report varying effectiveness of certain strategies. The Common Council intends to use these strategies and studies to best create a regulatory framework which protects the children of the City of West Allis (hereafter "City"), yet allows for a constructive and safe assimilation of designated sex offenders into the community.
- f. The Common Council finds that the risk of recidivism decreases over time from the date of the last conviction, especially in circumstances where offenders have community connections, goals, and employment. The Common Council is also aware that absent a domicile clause, the City would have open doors for non-resident sex offender residency when other communities have closed doors, inviting a substantial increase in child sex offender placements, thereby increasing potential negative impacts on the health, safety, welfare, and additional cost to the City and its residents. Studies show increased recidivism rates for offenders who frequently move or do not have established community networks. These studies support maintaining a domicile clause thereby limiting designated offenders with no ties to the community and increasing the likelihood that a designated offender implements appropriate and existing community support while allowing the community to remain intelligently attentive, aware, and provide adequate and appropriate intervention if needed.
- g. Accordingly, the Common Council has created this regulatory measure designed to protect the health and safety of the children in the City against the threat posed by certain designated sex offenders. Sex offenders who prey on children represent a substantial danger to victims, target a particularly vulnerable group within the community who are less able to articulate or report abuse, and create a significant impact on law enforcement time and community resources to investigate abuses and mitigate risks. This section is

also intended to demonstrate the City's resolute goal of protecting children in areas of potential vulnerability and impart the community's necessary expectation that designated sex offenders released into the community must maintain the community's confidence by demonstrating safe, productive, and law-abiding behavior while residing within the City. It is the intent of the Common Council that this regulatory scheme is civil and non-punitive in order to serve the City's compelling interest to promote, protect, and improve the health, safety and welfare of all citizens of the City.
