QUARTERLY TRAFFIC VIOLATION AND ACCIDENT REPORT FORM January - March, 2019

Accident Date	Dept/Division Affected	Incident Summary	Disciplinary Action	History
1/14/2019	Fire	While backing an ambulance into Fire Station 2 the ambulance cut a corner too sharply and one of the scene lights impacted the brick wall of the fire station. Proper backing procedures were being followed and a spotter was in place, but the driver and spotter did not communicate as effectively as they should have.	Coaching sessions were conducted with both the driver and his spotter and records of these sessions were entered into their digital personnel files. Applicable Operating Guidelines were reviewed with both.	Both of the involved employees are new members of the organization and neither has been involved in a previous vehicle accident.
2/25/2019	Fire	While responding emergently down a side street with vehicles parked on both sides, a fire engine clipped the mirror on a parked truck. This occurred after heavy snow had resulted in significant narrowing of streets and maneuvering fire apparatus had become extremely difficult.	Coaching session was conducted with the engine driver. Although she had one previous apparatus driving incident, snowfall had narrowed roads significantly and contributed greatly to this incident.	The involved driver has been a member of the department for 11 years during which time she was involved in one previous apparatus accident.
3/10/2019	Fire	While preparing to transport a patient from the scene of an EMS incident to the hospital, AMB62 backed into a rock that was buried in snow causing minor cosmetic damage to the side of the vehicle.	The driver was at fault and violated department policy by not securing a spotter or, minimally, conducting a 360° survey of the area prior to backing. Due to a combination of this incident and other significant events, the member's resignation is being processed at the time of this report's submission.	Driver has been a member of the department for 20 years during which time he has been involved in two previous vehicle accidents.
