

Possible strategic plan stakeholder questions:

*How would you describe the role of the library in the community?*

*In what ways do you think the library serves the community exceptionally well?*

*In what areas would you like to see improvement?*

*When you think about the future of the West Allis Public Library, what one opportunity would you find most exciting?*

*Do you use the West Allis Public Library? If so, how often?*

*If you don't use the services offered at the West Allis Public Library, can you briefly explain why?*
