I hereby request a variance to replace the deteriorated garage (18'x12') in its existing location. The garage is located 18" from the alley (5' req.), 2' from the interior property line (3' req.) and 10'-3" from the house (10' req.). There is nowhere to move the garage due to the triangular shape of the property and its location adjacent to the alley. The garage was built in 1928.

Thank you for your consideration.
